Support the education of 40 women in Quito

Report - August 2023

Our School for Feminist Popular and Political Education continues

With all donations, we have been able to grant scholarships to 40 women.

This year's edition of the school is made in collaboration with the Andina Simon Bolivar University.

This was our first day at the university

Meet Martha and Marianita

Martha and Marianita are two sisters from Quito, who joined the School at Mujeres de Frente back in 2019. Today, they are community leaders and they coordinate one of the organization's collective economic ventures.

Martha says: "The School has taught me to find my voice and speak up about my rights."

Thank you for supporting our process and believing in our organization!
