Support the education of 40 women in Quito

Report - March 2024

Our School for Feminist Popular and Political Education has started a new cycle. The 2024 school edition welcomed around 10 new women, who are interested in continuing with their educational process.

We have also created new aliances other organizations based in Quito, in order to nourish and further expand our knowledge(s).

Meet Nancy

Nancy migrated from Chimborazo to Quito at a young age. She became part of the organization around 2018 and since then she has been part of different spaces within the organization: the school for feminist and popular political development, the organizational venture that provides catering services and her three kids are part of the children space. Nancy has extensive knowledge of indigenous traditions and agricultural production, and shares it with us all at the organization.

Thank you for believing in our process!
