WINTER NECESSITIES FOR TAIWANESE CHILDREN

This winter turned out to be great thanks to our supporters and sponsors! We had a show of support this year and made multiple trips to ChingChuan and Taitung for deliveries of winter necessities, plant based food staples, and additional gifts.

This marks the 11th annual year we have been able to give back to families and children in Taiwan while providing support and workshops for them all year round. We kicked off our reindeer deliveries in the mountains of Hsinchu, working with Taoshan Elementary School and the Catholic Church with a few of our volunteer

elves. We had worked hard beforehand, wrapping each of the wishlist gifts in upcycled election paper and using leftover stickers and tape as well as working with Taiwan's premiere food delivery to fulfill a long list of plant-based food staples such as canned tuna, bolognese pasta, and pork floss. Outside mylk and everyday cooking oil was also included in the package in addition to 162 KG of organic rice that simultaneously supported local farmers.

We did what we could with what we had to provide more to all those we could. Next on our itinerary were indigenous tribes in Taitung, and thankfully we had help of our partners in the Vineyard Art Association to hand footwear to the kids in person. Our kids and their parents from the FUKID tribe also helped us sort and distribute the food staples and necessities to their own community; it's been so amazing to have seen the kids growing up since 2015 and with each passing year able to help us out even more!

Providing not only food security but also being able to connect with the community has been such a blessing.

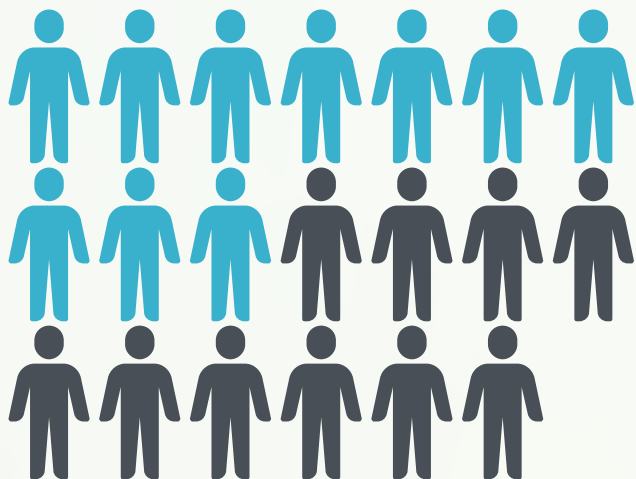

We want to thank you to all of our volunteer elves the past three months of gifting, workings, and deliveries to families and children. We also want to thank our local contacts in each location for making it possible to coordinate for delivery and even having the kids take us around and helping with distribution.

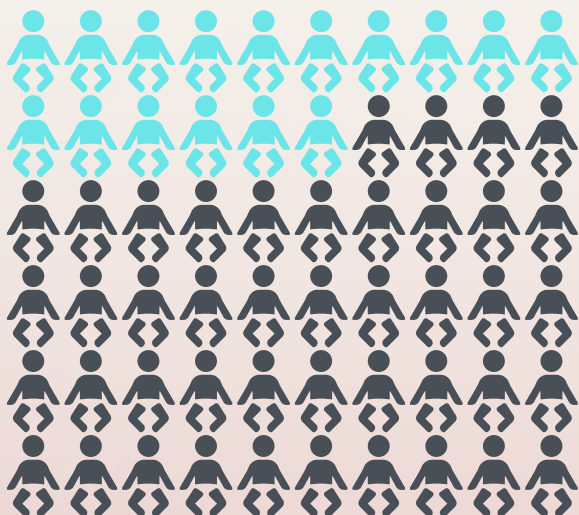

THANK YOU!
