Mission & Vision

Our Vision

To be a pioneer in the field of oncology care in Egypt and the region; Through its distinction in the fields of treatment, education, training and research For cancer treatment and disease prevention education, With this project, it will become the largest international medical city in Egypt for the treatment of cancer.

Our Mission

Providing the best treatment service for cancer patients in Upper Egypt free of charge, and providing the highest level of specialized and integrated health care free of charge for oncology patients, both children and adults, in the governorates of Upper Egypt, in addition to providing an integrated educational, training and research environment, public awareness programs and early detection in order to reduce the death rate and alleviate suffering Cancer patients and their families.

About Shefaa Al-Orman Hospitals - Luxor

- Shefaa Al-Orman Hospitals.. an international medical edifice on the land of Luxor to serve cancer patients in Upper Egypt for free, as a result of the concerted efforts of the Shefaa Al-Orman Foundation and the Orman Charitable Association. Where it was decided to establish the first and largest integrated hospital for the treatment of cancer patients in Upper Egypt, and to equip it with the latest diagnostic and treatment equipment. The adult hospital opened in May 2016, and the children's hospital opened in February 2021. Hospitals serve 6 governorates in Upper Egypt, namely: Luxor, Sohag, Qena, Aswan, New Valley, and Red Sea, with a population of about 15 million people. Shefaa Al-Orman succeeded in providing medical services to the people of Upper Egypt for free. Through the latest diagnostic tools, as well as the latest treatment methods that can be compared to the best international hospitals

Tumors Surgeries Project :

Tumour Surgery was actually established in Shefaa Al-Orman Hospital in 2018, and the number of operations in it reached approximately 1,300 surgeries per year for various tumour cases. The Department of Surgery has made a lot easier for the people of Upper Egypt, and saved them the hardship of traveling to Cairo to perform delicate operations there. The department includes distinguished cadres of consultants in the field of oncology surgery, and provides free surgical services for tumours of the breast, digestive system, urinary tract, gynaecological tumours, chest, and lungs , face, and neck- Since the opening of the operating rooms inside Shefaa Al-Orman; 3,077 operations were performed for cancer patients from all over the country with the latest advanced scientific .

Chemo Session Project :

Providing and Supporting the poor kids in Upper Egypt who suffer from cancer with Chemo, Radio sessions which costs the hospital millions of pounds due to the long waiting treatment journey ; specially that upper Egypt is considered one of the most region which suffers from poverty , illiteracy & weakness of health infrastructure .test advanced scientific means Since inception we provide 2,138,886 medical services to patients .about 105,981 Chemo sessions & 82,020 Radiology sessions
