## MIRACLES IN THE TRASH DUMP!

### NUTRITION, EDUCATION, ART, AND VOLUNTEERING

Thanks to special friends we began the 2023 school year with a different approach, by providing an intentional nutritional plan to our children, with all the vitamins needed for them to better their school performance. Plus school supplies, artistic and STEM activities for all of our students.

### A PLAYGROUND THAT CHANGES LIVES

For nine years we have prayed for a playground for our children and other kids who go to the dump; this is now a reality!!! A place where kids can be kids. There is no place like this one in the community, so all of our children are more than happy to play 24/7.

We look forward to what God has in store for us and thank every friend and partner that has helped us. We are grateful that each one of you has trusted us and our vision.
