

**Second (2nd) activity and financial report of project 58481 on the health of TIGOUNG NONMA members from June - September 2023**

### III Difficulties encountered

- The amounts received did not make it possible to care for all the 17 patients identified in the first report.
- A sick person returned to her native village according to her neighbors and we cannot reach her by telephone. This allowed the care of another member.
- A mentally ill person does not have medical documents. His parents do his treatments with traditional practitioners (without prescription);
- Four other members did not send their prescriptions;
- There were shortages of certain medications;
- TN was unable to support its members in obtaining their disability cards.

### IV Results achieved

- Medicines were purchased for thirteen (13) sick members;
- The health of the thirteen (13) members is improved;
- Better quality of life and better access to maternal and physical health care for the thirteen (13) members.

### V Perspective

- Always mobilize funding to take care of the health of members;
- Identify other patients and treat them;
- Buy medicines that were out of stock for patients;
- Encourage all patients to go to health centers to obtain medical documents to receive treatment;
- Support members in obtaining their disability cards.

### VI Financial report

#### VI.1. ENTRIES

- Transfers received: 1 USD = 601.0840 F CFA on the date of July 3, 2023.

- Supporting documents: Please find them in the appendix.

### VII Conclusion

TN contributed to improving the health of its thirteen (13) members.

We thank all our partners, in particular Global Giving, the donors and all those who support us for the well-being of people with disabilities in Burkina.

Done in Ouagadougou on 09/26/2023
