### Management Update:

(Administrative decisions , new projects...)

An emergency intervention was done in the city of Latakia - Syria after receiving an emergency 25,000 USD fund from Global Giving where 2 months period hygiene kits were distributed to 500 woman, 500 child and 100 elderlies. Since then and since there was no massive earthquakes AICA has focused on awareness campaigns for any new earthquake that would hit the region.

### Project Update:

- Activity 1: AICA though its OVs have been holding awareness sessions for groups of 10 people at its centers to teach people what to do during an earthquake
- Activity 2: AICA though its Communication department have been distributing awareness materials to teach people what to do during an earthquake

### Challenges

*Overview of any challenges encountered during the reporting period and how they were tackled*

Challenge(s)	Response(s)
People think that the earthquakes are over and won't happen anytime soon	Awareness focusing on explaining that no one knows when an earthquake happens so someone should be ready always
