

# Projects Report: 31 July-2024

## **Project Summary:**

This project aims to ensure access to clean and safe drinking water in underserved rural areas. Recognizing the fundamental need for clean water for human health and well-being, it addresses the critical issue of water scarcity in remote communities throughout Nepal.

## **Purpose of the Project:**

1. **Provide Access to Clean Water:** Ensure that underserved rural communities have reliable access to safe and clean drinking water.
2. **Improve Health Outcomes:** Reduce waterborne diseases and improve overall health by providing a safe water source.
3. **Enhance Quality of Life:** Make daily life easier and healthier by eliminating the need to travel long distances for water.
4. **Support Sustainable Development:** Promote sustainable water management practices to ensure long-term availability and reliability of water resources.
5. **Empower Communities:** Enable local communities to take charge of their water needs and contribute to their own well-being and development.

## **Project Water4All: project reports & Details**

**Total Beneficiaries:** Each well provides essential benefits to more than 10 people daily, enabling access to clean water for drinking, bathing, cleaning, cooking, and watering plants. This initiative significantly improves the quality of life for these communities.

**Total number of well:** 63 wells (62 wells are completed and 1 well is under-construction).

### **1. The aims of the Water4Life project include:**

Water4Life is committed to drilling hand pumps and Electric Pumps in Nepal to address the critical need for access to clean and safe drinking water. The initiative is driven by the following reasons:

1. **Water Scarcity:** Many regions in Nepal face water scarcity, making it challenging for communities to secure an adequate and reliable water supply for daily needs.
2. **Health and Sanitation:** Access to clean water is fundamental for maintaining good health and sanitation. By drilling hand pumps, Water4Life aims to reduce waterborne diseases and improve overall community health.
3. **Empowering Communities:** Installing hand pumps empower local communities by providing them with a sustainable source of water. This not only enhances their well-being but also supports economic activities such as agriculture and small-scale businesses.

4. **Essential for Worship:** Clean water is crucial for performing ablution (wudu), a prerequisite for prayer and other acts of worship.
5. **Prophetic Teachings:** The Prophet Muhammad (peace be upon him) emphasized the importance of water and encouraged its proper use and distribution.
6. **Act of Charity:** Providing clean water to others is seen as a significant act of charity (sadaqah) and earns spiritual rewards.

### **3. How did the project benefit the community/individuals?**

Thanks to the invaluable support of Global Giving donors, many families now have access to clean drinking water through hand pumps. This initiative has significantly improved the communities, enhancing hygiene, living conditions, and daily activities such as cooking and cleaning. Families no longer need to travel long distances or depend on unsafe water sources, leading to a positive transformation in their lives. This effort aligns with Islamic principles of charity and care for others, reflecting the teachings of providing essential resources and improving the well-being of communities.

### **4. Achievements:**

- 1- Providing safe water for drinking and agriculture.
- 2- Improving the health status of women and children, as most of those who fetch water for the family in rural areas are women and children.
- 3- The hand pump devices are simple to operate and provide access to enough water to serve communities quickly and easily.
- 4- Improving the income level of rural families.
- 5- Improving health care for the rural family.

## 5. Request to the Donors:

Dear Donors,

Al Ehsan Charitable Foundation (Nepal) is dedicated to various charitable endeavors, spanning relief, education, training, and social welfare. Our projects aim to make a positive impact in the lives of those in need. However, we rely solely on the generosity of individuals like you to support our noble causes.

With no independent financial resources, our ability to carry out these essential projects hinges on your kindness and support. Your contributions enable us to extend our reach and provide assistance where it's needed most.

We humbly request your assistance in achieving the goals and activities of our Foundation. Your donations will directly empower us to continue our mission of spreading compassion and making a difference in the lives of others.

As it is said, "God does not waste the reward of the doers of good." With your help, we can continue to serve those in need and make a lasting impact in our community.

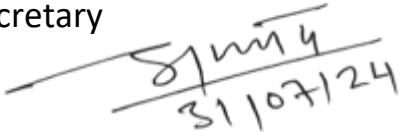

With sincere gratitude,

Al Ehsan Charitable Foundation Nepal
