

TOGETHER FOR MORE AND BETTER OPPORTUNITIES

The Education Axis of the León Foundation constitutes a comprehensive support system that guarantees the right to a quality education, reducing the socioeconomic barriers that cause school and academic dropout in the region.

The scholarship program offers tutorial support and monthly financial assistance, focusing its strategy on strengthening socio-emotional skills to ensure successful graduation.

Our 2025 sustainability report provides us with important data regarding the scope and impact of the support provided, which we carry out thanks to all those who support our actions, so we want to share some of the most important metrics below.

Scope: 503 scholarship students in 23 schools in the province of Tucumán.

Effective Graduation: 47 students successfully completed their secondary cycle in 2025.

Performance Metrics 2025:

Clarity of Purpose: 75.8% of participants increased clarity in their life project and professional goals.

Critical Competencies: A solid improvement is recorded in the expression of ideas (67.2%) and in the management of constructive criticism (75.8%), factors that directly impact the reduction of school conflict and group integration.

*Together we can reach more people and continue to improve the future for young people Those from northern Argentina who need us most. **Thank you for being a part of it.***
