From Hopelessness to Hope: The Story of Oliver & Tunu

Oliver and Tunu have been part of our Sponsor-A-Child program for nearly a year, and their transformation is nothing short of miraculous. When they joined, they were severely malnourished, sick, and weighed down by hopelessness. Living with their elderly father—

who suffers from chronic chest pain—the family shared one bed in a house with no electricity, no toilet, no water, and only a dirt floor. Cooking indoors on an open fire left the house filled with smoke and ash, causing constant illness. Tunu suffered a painful bacterial infection on her scalp, leading to bald patches and low self-esteem.

Thanks to the generosity of sponsors, their lives have changed dramatically. We renovated their home—

laying a concrete floor, plastering the walls, installing windows, putting a roof on the outside kitchen area, and buying beds. Tunu received medical treatment, and her hair is growing back beautifully. Both children now wear clean clothes and school uniforms instead of rags. Their school fees and daily meals are covered, and we supplement their home diet with weekly food parcels.

Now they smile, play, and attend school with joy and growing confidence. Their grades are improving, and their father's health is better too—he's even able to seek work again.

The next urgent step is building them a safe toilet and giving them access to clean water. Currently, they use a dangerous makeshift latrine and fetch water by the bucket. We are getting quotes from engineers and will begin construction soon on a proper toilet, sink, and rainwater harvesting system.

Because of you, their future looks brighter. And we're just getting started. We're preparing to welcome more children into the program and will be introducing them in upcoming updates. There are so many more lives we can change—together.
