Project Progress

The Mawoudit Foundation has partner with Global Giving in April 2023 in order to raise funds for constructing classrooms, latrines and distribute solar torches to students , and provide incentive for volunteer teachers at Deng Maker Primary school. Since April 2023, we have managed to raise \$150 from our generous donors through GlobalGiving platform but there wasn't any progress in raising funds since June 2023. Once again, we would like to give thanks to Three our donors for joining us to provide services to our community in Majak Goi Village. We would like to assure you that your donation mean a lot to us. We still didn't receive this \$150 from GlobalGiving because it is small for international transaction. Therefore, we would like to extend our request to our donors and GlobalGiving partners to donate to our project.
