

Ashfall Contingency in Puebla Popocatepetl volcano

**PARTIAL REPORT OF RESULTS FROM FREE MEDICAL CARE DAY:
ASHFALL CONTINGENCY**

PERIOD: MAY 15, 2023, TO MAY 19, 2023

PARTIAL REPORT OF RESULTS FROM FREE MEDICAL CARE DAY: ASHFALL CONTINGENCY

PERIODO: 15 DE MAYO 2023 AL 19 MAYO 2023

Although medical attention continued to be provided, the report focuses exclusively on the two most affected communities closest to the volcano.

During May in Puebla

Family consultation 351

Dental interventions 1,108

Ultrasounds and Electrocardiograms 22

I. Communities attended.

The Free Medical Care Day during the period from May 15th, 2023, to May 19th, 2023, attended the following localities:

Municipality	Communities	Attention days
San Nicolas de los Ranchos	Santiago Xalitzintla	2
San Nicolas de los Ranchos	San Pedro Yancuitlapan	3

Localities served in response to ashfall contingency.

Two localities from one municipality were attended to over a period of five days following the established route based on the maximum level of ashfall.
