

■ Introduction to Sustainable Development

Sustainable development is a balance between meeting the needs of the present without compromising the ability of future generations to meet their own needs. ■

■ The Importance of Sustainable Development

It is vital for achieving a secure and balanced future for both current and future generations, while preserving natural resources.

■ Foundations of Sustainable Development **Economic Sustainability**

It is vital for achieving a secure and balanced future for both current and future generations, while preserving natural resources. ■

■ Foundations of Sustainable Development **Social and Environmental Sustainability**

Includes social justice, empowerment, participation,
and the protection of natural resources to maintain
biodiversity. ■

■ Masarat Initiative

We strive to achieve sustainable development through sustainable knowledge projects targeting affected students in Northern Syria. ■
