

PROGRAMAS EN CUMPLIMIENTO DE LOS OBJETIVOS DE LA FUNDACIÓN.

CASA CULTURAL (ARTE Y EDUCACIÓN AMBIENTAL):

Su objetivo es hacer una contribución activa a la sociedad, en el sentido de un desarrollo sostenible, que al mismo tiempo se esfuerce por la viabilidad ecológica y la justicia social.

Se tienen activos los siguientes programas:

1. MÚSICA:

85 students divided into 5 groups: musical initiation, children's band, youth band, guitars and piano. In class, cross-cutting topics such as global warming, the greenhouse effect, alternative energies, species protection and resource conservation are addressed.

2. PLAN SPONSOR:

- 19 estudiantis at Colegio Salesianos
- 10 estudiantis at Institut YES.

The plan raises awareness about the environment, biodiversity, recycling, pollution reduction and respect for life, involving families in these issues.

3. TECNO-ACADEMIA:

Aimed at 15 students divided into 2 groups (8 to 10 years old and 11 to 13 years old). Proposal for an environmental initiative, with learning activities related to science and technology and environmental education.

4. READING CLUB (Green Planet):

20 children between 8 and 12 years old participate. This club promotes reading to promote citizen values such as respect, leadership, honesty and care for the environment, contributing to social peace.

5. ENGLISH:

30 children between 7 and 14 years old participate. This club promotes the learning of the English language with the support of the YES Institute of Neiva under the slogan of the FIRST BILINGUAL NEIGHBORHOOD

PLANETA CIRCULAR

1. ENVIROMENTAL EDUCATIONAL PROJECTS:

2. CHARLAS AMBIENTALES:

Virtual and in-person talks are held focused on caring for the environment. Lectures on the challenges of climate change stand out, given by Mr. Alejandro Mejía, addressing the 3 R's (Reduce, Reuse, Recycle), single-use plastics, among other topics. In addition, periodic talks are held for students and the community, encouraging sustainable practices and raising awareness about the importance of conserving our natural resources for a healthier future.

3. ECOLOGICAL POINT

It was installed at the entrance to the PASO Headquarters to teach how to sort garbage responsibly and motivate students and their families to replicate it at home.
