About AlOrman

Founded in 1993, Al Orman Association started aiming to serve the Orphans and offer humanitarian aid.

Since its inception, the association aimed to serve the neediest groups in the poorest regions without any religious or political discrimination. Through well-organized and sophisticated institutional work, it was able to emphasize the role of the civil society in the country's economic and social development.

In line with the current policies and efforts aimed at working to achieve Egypt's Vision for Integrated Sustainable development by 2030, Al Orman has adopted 8 of the UN SDGs and has achieved remarkable results.

Al Orman Association relied on the trust and support of the community. Monetary donations from individuals and institutions, together with close relations with government bodies, made Al Orman one of the main contributors working to achieve the 2030 Sustainability Development Goals.

Our Vision

A safe society that encompasses the marginalized and excluded communities , that is able to achieve social development and sustainable economies.

Our Mission

To outreach for the most needy groups and regions, to provide job opportunities and improve their living conditions, through partnerships with individuals and institutions.

الأورمان

Our Values

Socially responsible
Human
Trustworthy
Efficient

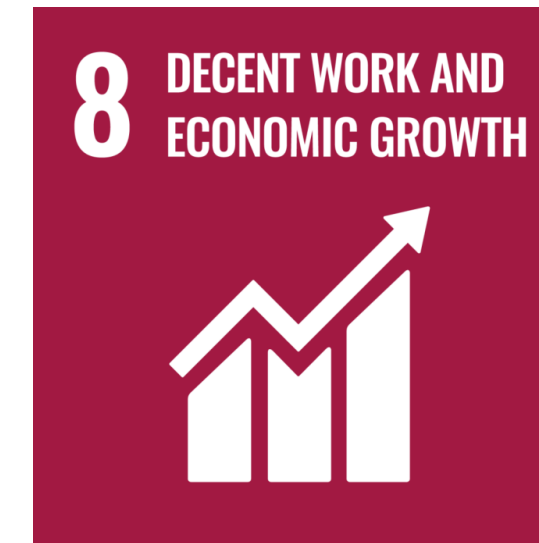

Our Strategy

Focus on working dynamically and efficiently with individuals and institutions to transform marginalized and most needy societies into safe and sustainable societies.

SUSTAINABLE DEVELOPMENT GOALS

- Livestock farming, Cattle Heads
- Kiosks

NO POVERTY

- Ramadn Boxes
- Sacrificial Animal Meat

ZERO HUNGER

- Shefaa El Orman Hospitals
- Cardiology
- Eye Operations
- Prosthetic Devices

GOOD HEALTH AND WELL-BEING

- Renovating & Developing Schools

QUALITY EDUCATION

- Empowering Women
- Marriage of Orphan Girls

GENDER EQUALITY

- clean Water to Homes

CLEAN WATER AND SANITATION

- Micro Finance

DECENT WORK & ECONOMIC GROWTH

- Home Reconstructio

SUSTAINABLE CITIES AND COMMUNITIES

Poverty eradication – total elimination of hunger

Rates of food insecurity are highest among single-mother families and families with incomes below the poverty line. It causes an increased risk of certain birth defects, anaemia, decreased nutrient intake, aggression, and anxiety in children. Providing food and overcoming malnutrition is very important especially when 34% of the population is between 0-14 years. We work hard to end poverty in all its forms. Orman has seasonal activities to help alleviate the suffering of these beneficiaries. Food feeding campaign throughout the year Monthly rations are distributed throughout the year to poor families to avoid malnutrition in children under 14 years of age as well as their parents. The food ration for one family ranges from 3,000 pounds to 4,200 pounds per year. Payment can be made once or in installments ranging between 250 and 350 Egyptian pounds per month.

Poverty eradication – total elimination of hunger

Ramadan balls Rates of food insecurity are highest among families with a female breadwinner and families with incomes below the poverty line, causing increased risks of some birth defects, anemia, and decreased nutrient intake. It also increases aggression and anxiety in children. In order to avoid this, Orman has seasonal activities to help alleviate the suffering of these beneficiaries. 2,750,000 cartons were delivered to those in need. Distribution of meat Many of us slaughter the sacrifice and do not know how to distribute it to the truly needy. Moreover, why is this meat not available to the needy throughout the year? 29,500,000 kilos were distributed.

Kiosks are important development projects that move the beneficiary from being a person in need to a small business owner who can develop and become self-employed. The kiosk is usually provided in a prime location to ensure its central location in good traffic areas to secure good income for the owner. The kiosks help villagers improve their economic standard of living. An estimated 6,100 kiosks were delivered.
