

## BT AT A GLANCE

April 2016

### MISSION

To catalyze individuals & communities in support of access to quality education for students in East Africa.

### VISION

A world where every child with a desire to learn has a safe, supportive, local and permanent place to do so.

### OUR MODEL

Individuals, groups & BT Chapters outreach, advocate & fundraise for the construction of a new primary school.

Working with the government & local leaders, we identify communities in rural Uganda with little or no access to a primary school & a strong commitment to education.

We offer to fund building materials & skilled labor in return for a donation of at least 3 acres of land, 15,000 hours of labor & a community's promise to support the school long term.

Local community members form committees to oversee construction and management of the school.

Together, we build a 10-room primary school & separate latrines.

We work with the local government to recruit qualified teachers, register students & furnish each room.

Uganda's Ministry of Education posts teachers in P1 to P7, while the community funds a nursery teacher, additional resources & programming at their own discretion.

We recruit & train Ugandan college graduates to provide 2 years of capacity building support for head teachers and School Management Committees at each new school (& public schools, too).

The school becomes a source of pride and acts as a catalyst for change throughout the entire community.

### NUMBERS

Year founded: **2006**

Completed & open schools in Uganda: **32**

Total classroom capacity in Uganda: **10,000 students**

Primary schools under construction or site-planning in Uganda: **11**

Classrooms at each school (grades P1-P7): **7**

Student capacity at each school: **315+**

Acres of land donated for each school: **3+**

Hours of labor volunteered by each community: **15,000+**

Full-time staff, in US: 3, & in Uganda: **42**

In 2014, as part of the Clinton Global Initiative and in partnership with Educate a Child, BT introduced Educate 51k, its 5 year, \$12 million plan to provide a safe, local, permanent, quality and supportive learning environment for 50,980 out-of-school children in rural communities across Uganda.
