Project Title: Kind Hope Resource Mobilization

Summary: To empower 50,000 youths in Harare Metropolitan Province high density suburbs by 2026 through:
 Imparting social, educational and economic knowledge into the youths through workshops, T.V and Radio Shows;
 Helping the vulnerable students through provision of school fees and material support;
 Establishment of projects to finance the organization and impart entrepreneurial skills;
 Imparting leadership and responsibility skills into the youths;
 Reducing Alcohol and Drug abuse amongst the youths;
 Partaking in all humanitarian work that benefits the underprivileged and those living with disability; and
 Providing sexual reproductive health rights education and material support.

Challenge	Solution	Long-Term Impact
<p>1. According to the Ministry of Women Affairs, Community, Small and Medium Enterprises Development, 67% of girls aged between 10 to 24 years miss school during menstruation due to a lack of access to sanitary products due the prices which are beyond the reach of many and clean sanitation facilities. Apart from missing school, health experts say these methods are breeding grounds for salmonella, E.coli and several bacteria that can result in reproductive health infections. Harare Metropolitan has a population of 2,427,231 and out of this number 1,267,881 are female. Kind Hope initial needs assessment was carried out in Epworth which has a population of 140,618 people, including children under the age of 6 - 13,886</p>	<p>a. Provision of affordable and where possible free of charge disposable sanitary napkins, reusable sanitary napkins, disposable tampons, menstrual cups, and clean, absorbent fabrics such as rags or underwear. b. We also have planned to purchase a sanitary napkin manufacturing machine to produce our own affordable sanitary pads. To reduce the cost of buying these products Kind Hope Organisation will source in bulk and take advantage of discounts. These will be then distributed to the users at reduced prices and or free of cost. c. The organization will also ensure that girls and the other members of the communities are educated/trained so that they understand how they can</p>	<p>a. 100% increase in school attendance of girls 30% per year. b. Removal of perception that menstruation is dirty or shameful which will result in zero isolation of girls and women during the cycle. c. Access to safe bathing facilities and menstrual supplies (hygiene kits) – including those in impoverished school systems, prisons and homeless shelters. -Zero tolerance to child marriage which are normally perpetrated once they start their menstruation cycle. -Removal/Reduction of misconception that women and girls have diminished capacities, whether physical or emotional, due</p>

<p>people, teenagers (schoolchildren) aged 7 to 17 years - 16,769 people, young people from 18 to 29 years old - 16,698 people, adults aged 30 to 60 years - 60,642 people, elderly people over 60 years old - 30,655 people, and the centenarians over 80 years old - 1,969 people.</p> <p>2. There is a sharp increase in the abuse of drugs by young girls and boys in the Harare Metropolitan Province especially in the high density suburbs resulting in the loss of life, mental derangement and high crime rates. According to Herald Zimbabwe's largest newspaper drug and substance abuse seem to be prevalent in urban areas, but effects are being felt in rural areas as evident by high school drop outs and suicidal cases of teenagers.</p> <p>3. According to Zimbabwe Statistics Agency (ZimStat) in its survey conducted in May 2022 which exposed high poverty levels in the country. The report discovered that Zimbabwean parents and guardians can no longer afford paying school fees with only 26% able to meet education expenses for their children. This results in teenagers failing to attend school and leading them to</p>	<p>effectively manage the menstruation cycle and how they can preserve menstruation related human rights.</p> <p>a. Kind Hope Organisation will organize road shows, tv shows, radio shows, erect billboards and create clubs meant to educate the youth on the negative impact of drug abuse on their livelihoods and their future. e.g. forming youth gardens or using existing low cost community halls as youth centers for organised club meetings.</p> <p>b. Partnering with rehabilitation facilities to ensure that those taken to the facilities receive proper resources/treatment, and care required to rehabilitate them to become better people in the society.</p> <p>c. Use of online workshops and discussions</p> <p>a. Kind Hope Organisation will establish a bursary scheme to cater for payment of school fees, provision of stationery and uniforms for the underprivileged. From the needs assessment carried out the following items were identified and we will also work on providing them to the school kids textbooks (O' Levels and Primary), Green Books (Questions and Answer books), Printed or</p>	<p>to their menstrual cycles which usually acts as barriers to a lot of opportunities. Proper management of menstrual cycle.</p> <p>a. Focused and respectful youths that are employable and have an entrepreneurial mind.</p> <p>b. 100% reduction in crime rates perpetrated by those that are mentally deranged due to the abuse of drugs.</p> <p>a. 75% Reduction of children failing to attend school as a result of lacking the required resourcing. Increase in graduates, employees, and employers as a result of the children having completed their various studies. 75% Reduction in crime rates and single headed families.</p>
--	---	---

<p>resort to illegal activities and become unproductive. Further to this the country would have lost future leaders and labor force.</p> <p>4. A sad reality most youths in Zimbabwe and Africa at large are growing up knowing that they need to know someone influential in society before they can get a job or they need connections before they can get a scholarship, and those who are born poor might remain poor. This is as a result of lack of mentorship to guide the youths to change their mentality. Further to this some of the youths are not even sure of what they want do with their lives and they will end up taking wrong courses or following career paths in which they may not be good at leading to a</p>	<p>photocopied past exam papers, Blazer, slacks and tracksuits, Calculators, CALA Resources and Mathematical sets.</p> <p>a. Kind Hope Organisation partners with universities, colleges, vocational training centers and employers to provide career guidance and mentorship the youth from a young age till they become employable or becoming employers themselves.</p> <p>b. There shall be Kind Hope Mentorship Club which will also include alumni for the same that will be helping other students to understand life with real examples of how they would have made it.</p>	<p>a. Increase in youths pursuing their dreams and disciplines and sharp increase in the right fit job candidates and experts.</p> <p>b. Increase in the numbers of mentors in Kind Hope Mentorship club.</p>
