We are on a mission to create digital equity for all Minnesota students.

Transforming Technology, Empowering Potential

Minnesota Tech For Success creates digital equity for students by partnering with schools and educational organizations to provide technology access, engaging STEM programming, and IT workforce development in underserved communities. Together with our Minnesota community, we are working to create a future with digital equity for all Minnesota students.

EDUCATION & EMPOWERMENT We empower the potential of students by providing technology access, education, and skills training.

TRANSFORMATION & TECHNOLOGY Through our certification and internship programs, learners who had previously been held back due to lack of digital equity transform their relationship with technology to one of opportunity.

FULL CIRCLE IMPACT & SUSTAINABILITY We impact the full lifespan of technology by refurbishing and reusing donated computers and recycling what doesn’t live up to performance standards.

DIGITAL EQUITY & DIVERSITY By creating digital equity in Minnesota, we are diversifying educational and professional spaces to make sure everyone has the technology access and capabilities to improve their lives and succeed.

For more information about Minnesota Tech for Success, the impact we are making with our Minnesota community and ways to get involved, visit techforsuccess.org.

Join in creating digital equity for all Minnesota students

Our mission to create digital equity in Minnesota is possible thanks to our partners, both businesses and individuals. Through recycling and refurbishing used technology, we can build digital equity and reduce e-waste.

SUPPORT AS A BUSINESS

Donate equipment to put your company’s used computer equipment to good use. We refurbish and repair donated technology and use it to create digital equity.

Give financial support so we can provide technology to students and schools at low to no cost, as well as free educational programming for the community.

Volunteer as a group with an event at our warehouse, where all levels of experience are welcome.

SUPPORT AS AN INDIVIDUAL

Give financial support to make our programs possible and help us to provide technology to students and schools at low to no cost.

Volunteer as an individual at our warehouse and help us build computers for classrooms, disassemble computers for recycling, organize parts, and more.

Join our board of directors to lead the way in creating digital equity for all.
