

# LIFE AFTER THE EARTHQUAKE

FONDATION ORIENT-OCCIDENT  
SOS Earthquake Solidarity

Step 1: Make children smile again

We are thrilled to share with you the transformative impact your generous support has had on the lives of those affected by the recent earthquake in Morocco. Through our SOS Earthquake Solidarity Project, the Foundation Orient Occident (FOO) has been working diligently to bring hope, healing, and restoration to the resilient community in the village of Tinnel.

## Assessment and Urgent Intervention

Following extensive on-the-ground assessments by our dedicated teams of psychologists and social workers, we identified the critical needs of the population in the villages surrounding Tahannaout, specifically Douar Tinnel and Douar Azrou. Given the urgency and the village's previous lack of humanitarian aid due to its remote location, we focused our efforts on Tinnel, a village completely devastated by the earthquake.

# THE VILLAGE OF TINMEL AFTER THE EARTHQUAKE

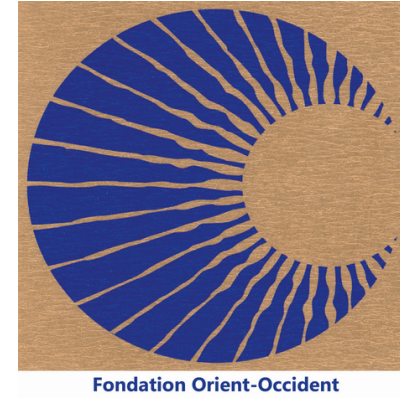

Tinmel, housing around a hundred children, faced dire conditions with limited access to sanitation facilities, makeshift sleeping arrangements, and a lack of basic necessities.

Kids have been waiting 2 months without going to school; they have not lost hope and spend their time doing homeworks outside

# FONDATION ORIENT OCCIDENT'S INTERVENTION

## Immediate Relief Measures

The Foundation has set up a 1-year project. It has already carried out the following actions:

Distribution of Warm Clothing and School Kits:

Providing essential items for the residents, especially the children.

Container Facilities:  
Setting up and furnishing  
two containers for  
educational activities  
and an additional  
container for sanitation  
needs.

Educational and Psychosocial Support:

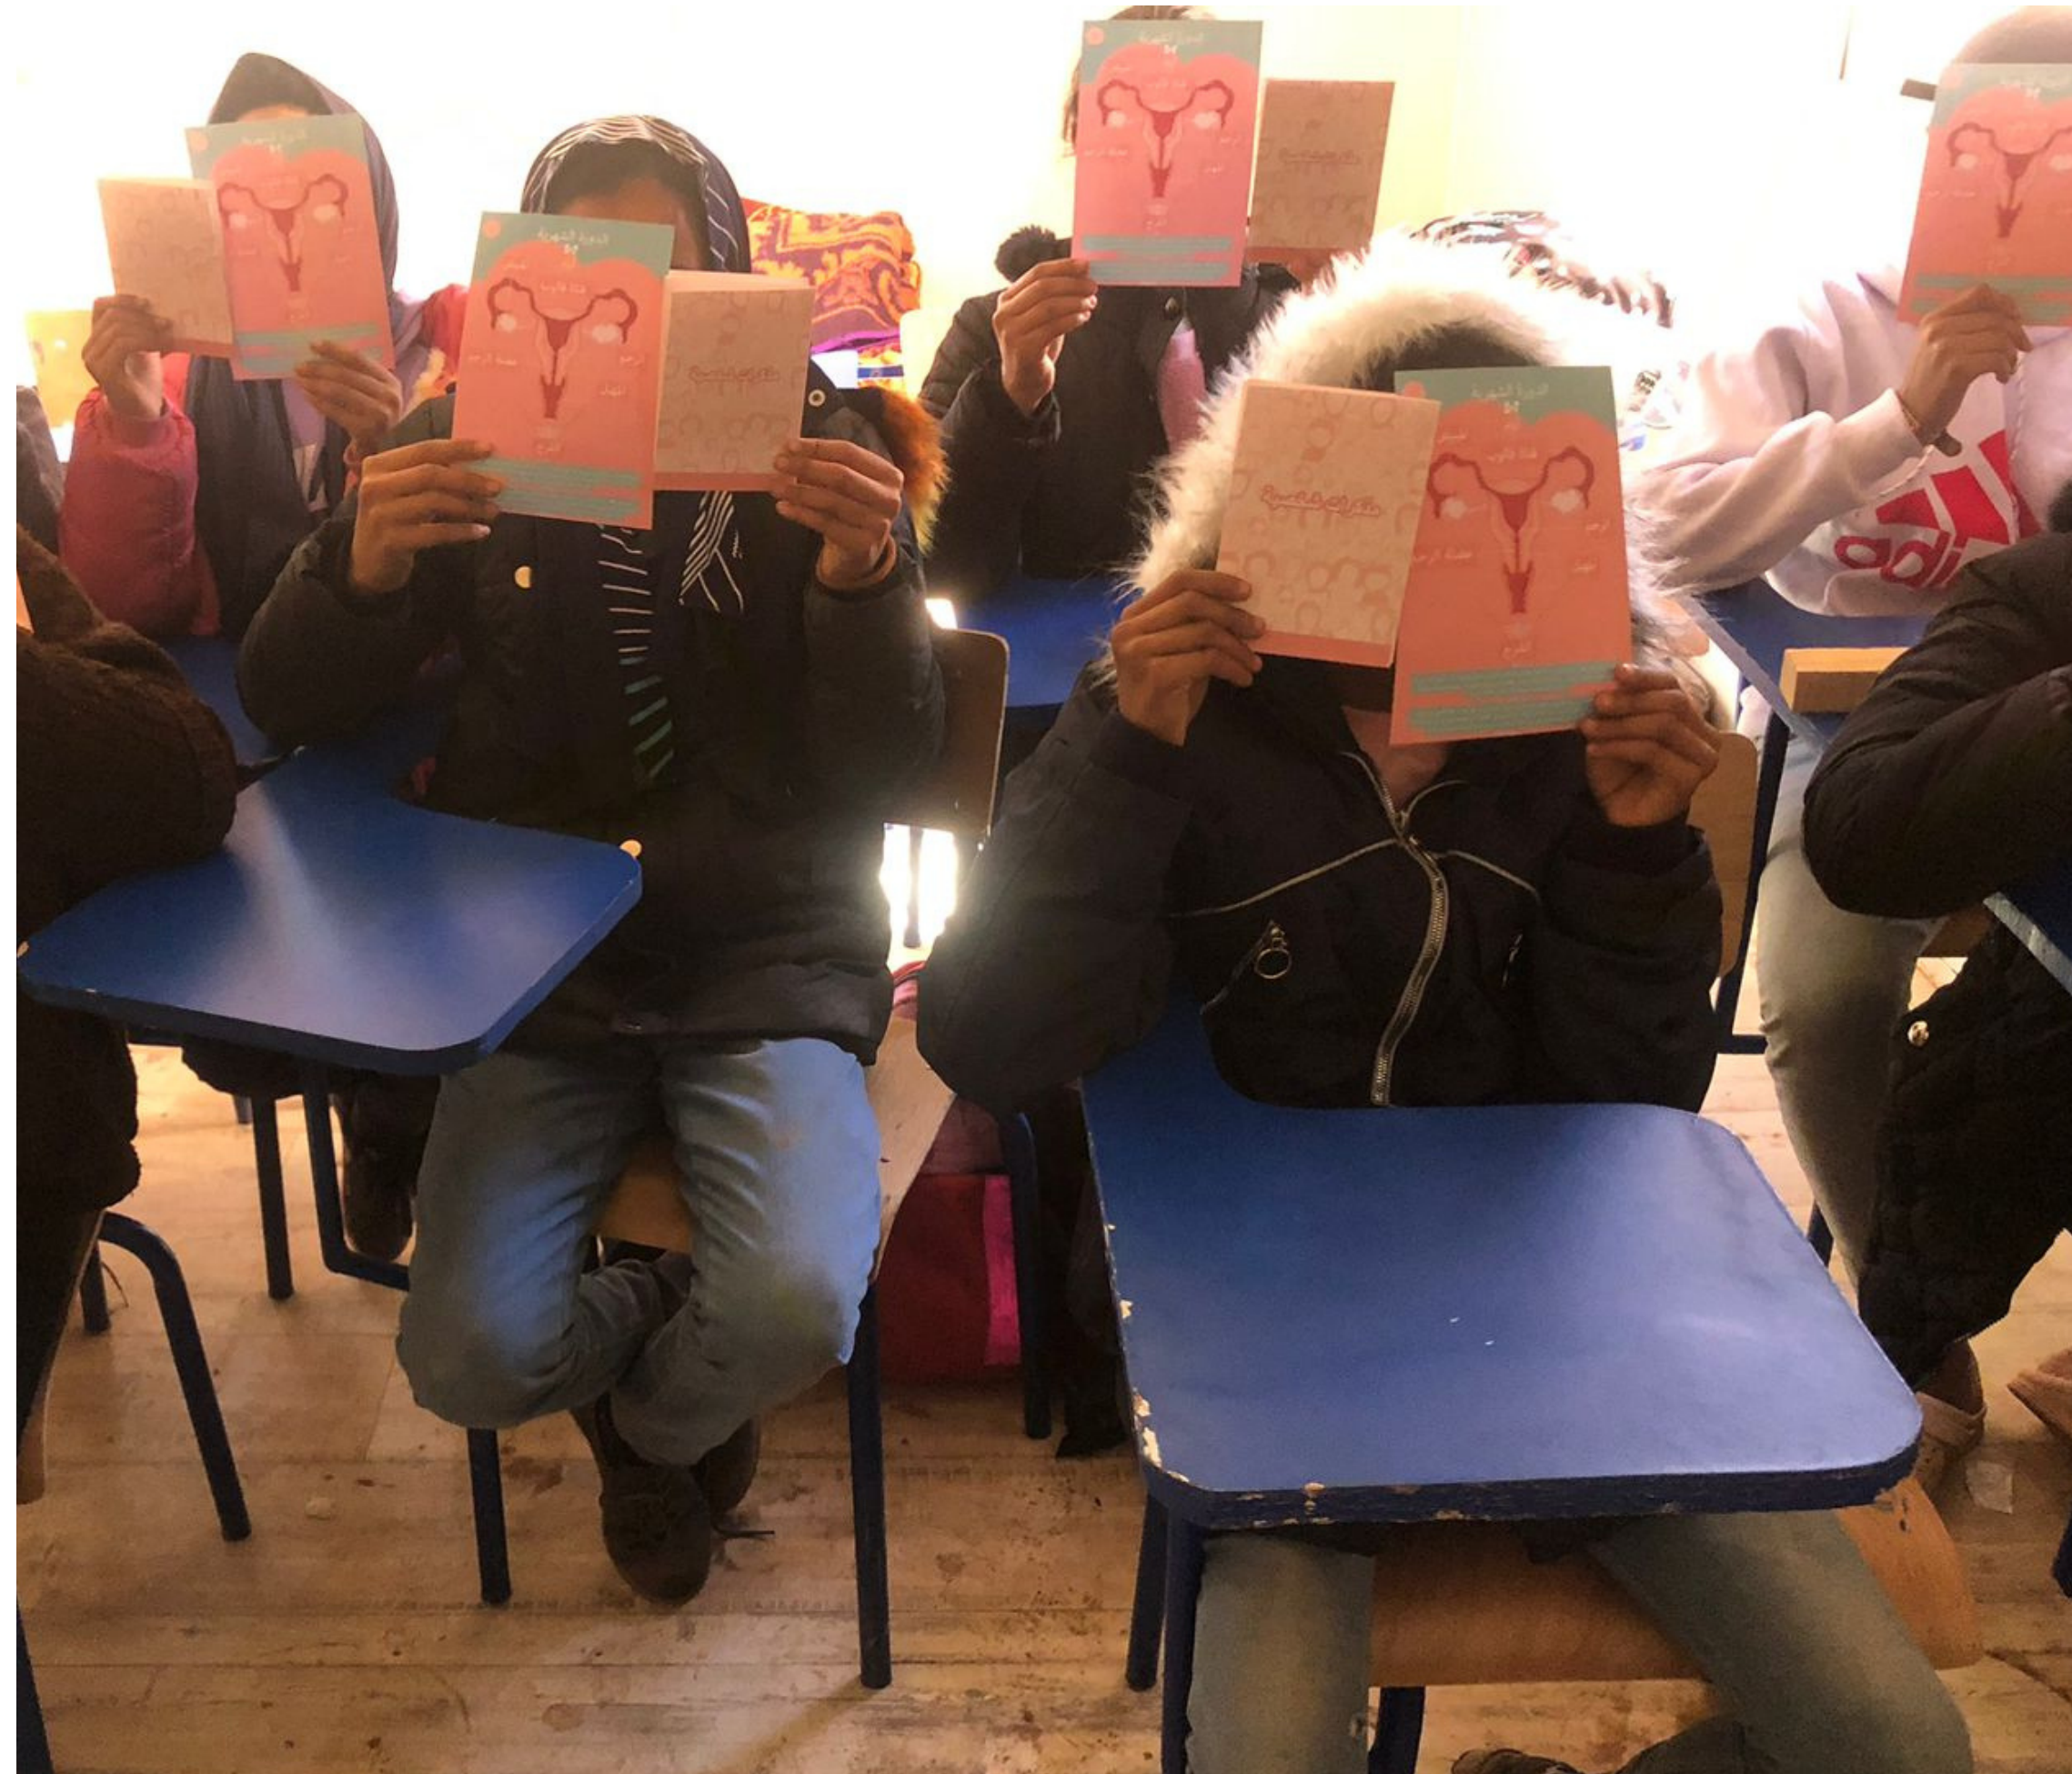

Conducting extracurricular activities,  
tutoring sessions, psychological  
counseling, and artistic and cultural  
workshops in the newly established  
containers.

## Menstrual Hygiene Education for Girls:

Our teams prepared booklets explaining menstruation to young girls, conducting workshops to provide comprehensive understanding, and distributing menstrual panties to ensure their well-being.

# Empowering Women's Cooperatives

Beyond immediate relief, we are committed to supporting women's cooperatives whose livelihoods were disrupted. Many cooperatives, engaged in various artisanal activities, faced challenges due to the earthquake's aftermath.

Our actions include:

- Needs Assessment: Identifying requirements for space and materials.
- Material Procurement: Acquiring necessary equipment and raw materials.
- Startup Assistance: Covering the initial transportation costs for the first merchandise.
- Marketing Guidance: Offering insights into digital marketing strategies to enhance product visibility, especially in the Marrakech region.

The progress made so far is a testament to your invaluable contribution. However, the journey to recovery is ongoing, and we invite you to stand with us in making a lasting impact on the lives of these resilient individuals. Your continued support ensures that we can sustain our efforts and bring sustained positive change to the affected community.

Together, we can rebuild not just homes but hope for a brighter future.

With heartfelt gratitude,
