

## Progress Report: Empowering Nepalese Children's Education (Project ID: 61623)

### Introduction

This report outlines the progress made during the month of June 2024 for the Empowering Nepalese Children's Education project. The primary focus was on providing essential support to the students of Junkiri School, including school uniforms, food, and shoes.

### Funds Received

For the reporting period, PA Nepal received a disbursement of \$495.81. This is notably less than previous months, which presented challenges in meeting all necessary expenditures

### Allocation of Funds

The disbursed amount was carefully managed to address the most urgent needs:

**School Uniforms:** A significant portion of the funds was used to provide uniforms for the students at Junkiri School. Uniforms are essential for ensuring that the children can attend school with dignity and pride.

**Food:** Despite the reduced funding, we ensured that the children received their regular meals, which are crucial for their health and ability to focus on their studies.

**Shoes:** A portion of the funds was also allocated toward purchasing shoes for students who needed them for school and daily use.

## Challenges

Due to the reduced disbursement for this period, we were unable to cover all planned expenses as comprehensively as in previous months. The limited funds required us to prioritize the most critical needs, leaving some secondary expenses unmet.

## Impact

**Children's Well-being:** The provision of uniforms, food, and shoes has had a direct positive impact on the children's confidence, health, and ability to continue their education without interruption.

**Community Support:** Although the funds were less this month, we continue to receive strong support from the local community, which helps us maintain the day-to-day operations of the school and care for the children.

## Looking Ahead

We are hopeful that the coming months will see an increase in donations, allowing us to better address the growing needs of the children in our care. Additional funding would enable us to cover more comprehensive educational and nutritional support.

## Conclusion

Despite financial constraints, PA Nepal has continued to make the best use of the available resources to meet the immediate needs of the children. We are deeply grateful for the ongoing support from Global Giving and all donors. Every contribution plays a vital role in empowering these children through education.
