

Progress Report: Empowering Nepalese Children's Education (Project ID: 61623)

Introduction

This report presents the progress made between the month of September to December 2024 for the project, "Empowering Nepalese Children's Education project". The primary efforts was on providing essential support to the students of Junkiri School, including Books and stationeries, food, and clothes.

Funds Received

For the reporting period, PA Nepal received a disbursement of \$1174.66. This funding enables us to meet some of the basic and urgent needs of the children

Allocation of Funds

The disbursed amount was thoughtfully allocated to address the most pressing needs of the children:

Books and stationeries: A significant portion of the funds was utilized to provide books and stationery for the students of Junkiri School. These supplies are essential for enabling the children to actively participate in their education and develop learning skills.

Food: We ensured that the children received their regular meals. Proper nutrition is crucial for their physical growth, overall health, and ability to concentrate and perform well in their studies.

Clothing: A part of the funds was allocated to purchase clothing like socks etc. Appropriate clothing ensures that the children are comfortable, confident, and adequately prepared for both school and daily activities.

Challenges

PA Nepal faced challenges due to the global recession, largely caused by financial constraints from the pandemic. With limited resources, we had to manage expenses carefully to meet the children's needs.

Impact

Children's Well-being:

Providing books, stationery, food, and clothing has positively impacted the children's confidence,

supported their health, and uninterrupted access to education.

Community Support: Strong support from the local community, which helps us maintain the day-to-day operations of the school and care for the children.

Looking Ahead

We are hopeful for continued donations through Global Giving, which will help us to better meet the growing needs of the children in our care. Additional funding would enable us to cover more comprehensive educational and nutritional support.

Conclusion

Even with financial challenges, PA Nepal has been able to utilize the available resources to meet the children's immediate needs. We sincerely appreciate the continued support from Global Giving and all our donors. Every contribution is essential in helping empower these children through education.
