

VOICE OF GRATITUDE

Change is only possible when we work together

“Unity is strength,” and with this conviction in our hearts, we first want to thank all those who contributed their time, energy, and heartfelt

commitment, who stepped forward and made it possible for the aid to arrive.

The resilience of the people of Acapulco and their unwavering determination to overcome tragedy fill us with joy for the work accomplished.

In partnership with other aid groups and the Mexican government, we established:

4 community kitchens.

We received and distributed 4 containers of food, essential supplies, medicine, etc., to devastated areas.

We succeeded in bringing hope and laying the foundation for a new beginning.

Much work remains to be done, and we continue to support the people of Acapulco.

¡Thank you for your contribution, which has allowed us to participate in this wonderful project!
