

## **STRENGTHENING RESILIENCE DURING AND AFTER DISASTER**

### **QUARTERLY PERFORMANCE REPORT**

#### **LOCAL PARTNER (SORD)**

## Information

Yemen continues to face overlapping crises, including armed conflict, natural disasters, and economic collapse. These challenges have displaced thousands of families, increased food insecurity, and weakened access to essential services. Vulnerable groups—especially women, children, and the elderly—remain at high risk.

## Quarterly Performance Report – Local Partner (SORD)

January 2026

**Prepared by:** Shaif Al-Deen **Position:** Project Manager **Organization:** Sanid Organization for Relief and Development (SORD) **Email:** Programs.officer@sanid.org **Website:** www.sanid.org

### Project Information

 Field	 Details
 Project Title	Strengthening Resilience during Conflicts, Disasters, and Emergencies
 Location	Yemen
 Grant Applicant Org.	Sanid Organization for Relief and Development (SORD)
 Start Date	October 2025
 End Date	January 2026
 Address	Amanat Al-Asimah – Shuoub District – Al-Habbari
 Phone	+967 01205757
 Mobile	+967 778515109

### Project Overview

The project “Resilience Support: Disaster Management and Humanitarian Response Fund” implemented by SORD provides rapid and effective humanitarian assistance in Yemen’s conflict-affected and disaster-prone areas.

**General Objective:** To deliver emergency relief and humanitarian support to displaced families affected by conflicts and natural disasters, aiming to reduce suffering and strengthen resilience.

#### **Key Interventions:**

- Provision of food, water, shelter, and medical care.
- Psychosocial support and trauma counseling.
- Emergency nutrition programs to reduce malnutrition.
- Temporary housing and improved sanitation facilities.
- Mobile health clinics and essential medical services.
- Educational support for children affected by crises.

- Livelihood opportunities, vocational training, and microfinance.
- Community-based disaster preparedness and resilience training.

## Objectives

 Objective Area	 Description
 Emergency Relief	Provide food, water, shelter, and urgent medical care to displaced families.
 Nutrition & Health	Deliver treatment for malnutrition, chronic diseases, and maternal health support.
 Psychosocial Support	Offer trauma counseling and safe spaces for children and vulnerable groups.
 Shelter & Sanitation	Distribute emergency shelter kits and improve sanitation facilities in affected areas.
 Mobile Health Services	Establish mobile clinics to provide essential medical care in remote communities.
 Education Continuity	Support children's learning with materials and psychosocial programs.
 Livelihoods & Empowerment	Provide vocational training, microfinance, and income-generating opportunities.
 Community Resilience	Train communities in disaster preparedness and response strategies.

## Achievements (January 2026)

- **40 displaced families** received urgent food and shelter assistance.
- **20 families (60 individuals)** benefited from food baskets, blankets, and kitchen supplies.
- **29 elderly patients** with chronic diseases (diabetes, hypertension) received essential medication.
- **22 pregnant and lactating women** received medical check-ups and nutritional supplements.
- **40 malnourished individuals** treated at the nutrition center.
- **50 children** received winter clothing, recreational kits, and psychosocial support in safe spaces.

**Total Beneficiaries: 251 individuals**

Sanid Organization (SORD) Project Achievements - January 2026

### ⚠ Challenges

⚠ Challenge	📝 Description
💰 Funding Shortages	Limited resources and insufficient funding to sustain emergency interventions.
👨👩👧 Rising Vulnerability	Growing number of families in urgent need of humanitarian assistance.
💡 Multiple Disaster Sources	Overlapping crises from conflict, floods, and other emergencies across different regions.
📦 Procurement Delays	Reliance on deferred agreements with suppliers due to funding gaps.

### 📌 Recommendations

- **Fundraising & Sustainability:** Increase donor engagement and fundraising efforts to sustain emergency interventions, as the organization currently faces funding shortages and must often secure relief materials on credit.
- **Expansion of Coverage:** Expand project coverage to reach more severely affected areas, building on the success of reaching 15,000 individuals to date.

- **Strategic Collaboration:** Strengthen collaboration with local organizations and government institutions to improve the efficiency and reach of humanitarian responses.
- **Long-term Resilience:** Enhance the focus on economic empowerment and educational programs to help displaced families move beyond immediate relief toward self-sufficiency.

## 🌍 Impact

- Direct relief provided to **15,000 people** in targeted communities.
- Improved resilience and coping capacity among affected families.
- Contributed to social and economic stability in conflict-affected regions.
