

Campaign Update Summary:

The BEAM Education Foundation is dedicated to fostering social change in Myanmar and Thailand by providing education and mental wellness support to migrant youth. By empowering students to promote resiliency, healing, and development within their communities, BEAM aims to create a lasting impact. The funds collected from this project will ensure the continuation of BEAM's vital programs, supporting teachers, social workers, administrative staff, volunteers, and, most importantly, the students themselves. Throughout the fundraising campaign from the last four months to the present, we have raised €1,167 out of the targeted fund of €277,206. However, despite funding difficulties, we are dedicated to providing our services to the communities in need as the demand is high. Your generous donation can significantly impact these individuals' lives, helping sustain and expand BEAM's efforts to transform communities through education and mental health initiatives.
