

# Understanding GlobalGiving's API

## Expand Your Reach with GlobalGiving

### Some of Our API Partners:

1. **Benevity** provides companies with a one-stop shop for global employee engagement, featuring *all active projects* on GlobalGiving. Donors find your work via their company's Benevity portal; we handle the global disbursements.
2. **Bright Funds** does something similar but features *all active organizations* in GlobalGiving's community and provides general operating funds
3. Other partners include Blackbaud/YourCause, Deed, Endaoment, Givinga, Hasanah, Kambeo, & Pledge

*\*\* Donations from API partners are collected monthly and can take an extra 1-2 months to arrive in your dashboard*

### What is the GlobalGiving API?

#### A technology solution offered to other fundraising platforms

- Everyone that joins GlobalGiving's community of vetted nonprofits gets the benefit of additional donor visibility on our API partners' platforms

#### What does this mean for you as a nonprofit partner?

- You may see donations with a traffic source of "GlobalGiving API" or "Bulk Donation Import" - [Congrats\\*](#)
- You may see disbursements marked as "Organization Level" rather than tied to a specific project of yours - [Use them freely!](#)
- If you joined GlobalGiving for a single, large corporate grant, you may still receive small donations from individual donors - [Let us know if you want those paused](#)
- You may have been referred to GlobalGiving by an API partner - [Welcome! This doesn't mean there is a large grant awaiting you, but let us know if we can help you fundraise](#)

*\* Fees on these donations may vary*
