

**Better Life with out HIV  
opportunities come true**

## HIV FREE CHILDHOOD

**No child or woman should face rejection because of HIV. They deserve care, opportunity, and a life filled with hope.**

**Through Childhood Free of HIV, we are transforming shelters into Homes of Care — safe and loving spaces for both children and women.**

**Join us in building a world where children and women living with HIV are seen, valued, and supported.**

*Old*

**Because of you, women and children affected by HIV now have a safe home, a voice, and a future full of dreams.**
