# RITE OF PASSAGE

Navigating transitions,  
Making meaning of your life in community

## WHAT

The Rite of Passage is a transformative group process designed to unearth meaning and direction in your life. It gives you space out of your ordinary life to sense into your deeper meaning and what you feel called to contribute to the world.

In indigenous societies across the world rites of passage mark the major transitions in life: puberty, adulthood, eldership. At each point we are invited to consider our core contribution to our community. Our rite of passage echoes this process. It asks the question: who are you and what do you want to represent and embody at this critical point in human history? It makes space for you and your story, woven into the bigger picture.

## WHY

Right now the world needs young people who grow conscious of the major shifts taking place and who are courageously exploring how they can best contribute to the ripples of transformation.

The rite of passage gives you space to do this. Maybe you are feeling unfulfilled, overwhelmed, not sure where to start because of all the turbulence in the world. Maybe you just have a felling that there is more to your life than what you are currently doing (or being).

The Rite of Passage can mark a transition into an adult life flourishing with meaning in community.

To make this endeavour a wholesome one, we put a lot of thought into finding a regenerative approach to economy, meaning that next to some help through foundations there will be a participant contribution we would ask from you which doesn't have to be only of monetary nature. We want to make sure that the rite of passage will be accessible to all and are eager to explore this topic with you.
