

Dear Global Giving Team,  
Dear Sponsors and Supporters,

We are pleased to share with you the most recent advancements from the last three months in our initiatives at INNOBUC. Below are the key achievements:

**1. Delivery of Solar Lamps from the INLIGHT Program in San Blas, Panama:** In recent weeks, we have made significant progress with our INLIGHT program. We successfully delivered solar lamps to the community of San Blas in Panama. This effort has greatly improved the quality of life for numerous families by providing them with a sustainable and renewable source of light.

**2. INLIGHT Project Demonstration in Africa:** Aiming to expand our impact, we conducted a demonstration of the INLIGHT project for potential partners in Africa. The demonstration was highly positive, generating interest and opening the door to future collaborations that could bring our sustainable solutions to new regions around the world.

**3. Trip to Cartagena, Colombia to Establish a Partnership:** As part of our international expansion and collaboration strategy, INNOBUC traveled to Cartagena, Colombia. During this visit, we finalized a partnership with a local foundation. Additionally, we took the opportunity to work on the INLIGHT project, exploring ways to implement our solutions in this region and strengthening our commitment to sustainable development.

We are excited about these advancements and the future prospects they have opened up. We deeply appreciate the continuous support from Global Giving and all our collaborators, without whom these achievements would not have been possible.

Project Inlight visit Cartagena Colombia for posible Alliance
