

July 9, 2026

Dear Friends at GlobalGiving,

First and foremost, we would like to express our most sincere gratitude to GlobalGiving for being the bridge that has allowed us to connect with people from around the world who are committed to creating greater opportunities for those seeking to transform their lives through entrepreneurship. We are also deeply grateful to every donor who believed in our work and chose to support this cause. Your generosity made this project possible and allowed us to expand its reach and impact.

Thanks to your support, between May and July 2026 we trained 21 entrepreneurs – mainly young people between the ages of 18 and 30 – who strengthened their knowledge in entrepreneurship, digitalization, marketing, finance, and business development.

With these results, and together with the progress reported in the previous quarter, the project concludes with a total of **105 people trained**, far surpassing the initial goal of 15 beneficiaries. During the previous reporting period, 84 participants – primarily women between the ages of 25 and 40 – benefited from **capacity-building activities focused on business digitalization and the growth of their entrepreneurial initiatives**. In addition, the project reached several states across Mexico, including Oaxaca, Querétaro, and the State of Mexico. In these regions, we not only accompanied entrepreneurs in their growth process but also strengthened partnerships with local organizations and stakeholders who helped expand the project's reach.

Throughout this initiative, we provided practical tools that enabled participants to strengthen their capacities to adapt to an increasingly digital environment, improve business management, develop marketing strategies, and recognize their potential as entrepreneurs. These skills provide a strong foundation for growing their businesses, strengthening their economic independence, and creating a positive impact on their families and communities.

With these achievements, we officially conclude project "**Rompiendo Mitos del Emprendimiento en México**" (Breaking Entrepreneurship Myths in Mexico), reaffirming our commitment to continue promoting entrepreneurship as a driver of economic and social development. This project demonstrates that when organizations, donors, and partners join forces, it is possible to create opportunities that transform lives and strengthen communities.

Thank you for believing in our mission and for walking alongside us on this journey. Every contribution has created an opportunity for more people to develop their skills, strengthen their businesses, and move toward a future with greater opportunities. Your trust inspires us to continue creating initiatives that multiply this impact and transform lives through entrepreneurship.

With heartfelt gratitude,

Patricia Larios
Executive Director
