### Project Description: Empowering Youth at Thamae LECSA Primary School

At Thamae LECSA Primary School, we're dedicated to nurturing the holistic development of our students. With the support of GlobalGiving, we're embarking on an exciting initiative to address critical needs within our community.

#### Counseling Corner:

Our first focus is on mental health. We're establishing a Counseling Corner staffed by a professional counselor with over 15 years of experience. This dedicated space will provide confidential counseling sessions to every child, fostering emotional resilience and equipping them with essential life skills.

#### Sewing Studio:

Additionally, we're opening a Sewing Studio to offer skill-building workshops and training sessions in sewing and crafting. This initiative, particularly targeting high school girls, aims to provide constructive outlets and alternative activities, steering them away from harmful behaviors.

Moreover, through partnerships with local businesses and corporations, we aim to generate income by producing and selling reusable sanitary supplies and other crafts, providing valuable opportunities for our students to apply their skills and contribute to their community.

#### Budget:

- Renovation of Counseling Corner: \$1,000
- Furnishing and equipment for Counseling Corner: \$1,000
- Staff training and counseling program development: \$1,500
- Conversion of Sewing Studio: \$1,000
- Sewing machines and materials: \$1,500
- Workshop facilitation and training: \$1,500
- Marketing and promotional materials: \$ 500
- Miscellaneous expenses: \$1,500

Total Budget: \$9500

With your support, we can create a nurturing environment where every child can thrive emotionally, academically, and socially. Join us in empowering the youth of Thamae LECSA Primary School to build brighter futures for themselves and their community.
