

ORGANISATION PROFILE

Address: Nakivale | Isingiro District | Western Uganda.

Establish date: 25th January 2020

HISTORY

Living in a refugee camp for just several months, is one of the biggest challenges people can face in their life and Nakivale refugee settlement in one of them because it is easier to get traumatized, to lose hope, to grow without formal education, to even die with diseases like malaria and infections.

In 2019, some youths living in Nakivale refugee settlement met on a street and started discussing about their life challenges in the camp, and many of them noticed that their friends have been suffering for so long from stress, trauma, hunger, and other different diseases and these situations were similar to many of them.

After meeting on the street and discussed, these young people had set a place where children and youths could meet to share stories and life experience withing the community. A few weeks ago, people were interested to come regularly in the place to listen to other people's stories and gain more interest of sharing theirs.

Then we saw that as an opportunity of uniting people in our community and we got a vision to make these meetings well organized, involving some community leaders; therefore, in January 25th, 2020, out of these story telling meetings and life experience sharing, we create a community-based Organisation under the name of New Talent Group for the Best Future.

WHY WE EXIST

Many children and youths are facing challenges to access formal education and have limited access to sport facilities to enjoy play as one of their rights, and as a tool to strongly support their mental health.

We believe that sport for change, for peace and for development programmes are powerful tools that unite people from different backgrounds, promote social inclusion and integration and can be used to solve conflicts among different communities.

New Talent for the best future was created by young refugees living in Nakivale Refugee Settlements in Uganda to support refugee children and youths who have little hope and limited opportunities to secure a better future.

Mission:

Raising Children and Youth's Talent through Education, Sports, Art and Social skills

Vision :

Building a strong generation where everyone is using their talents to change lives

Core Values:

Peace, Creativity, Diversity and Reconciliation.

PROGRAMME ACTIVITIES

1. English Training

Language barrier is one of the biggest challenges that refugees face when arriving in Uganda.

We teach basic English lessons to children and youths to easily communicate, integrate and being ready for any opportunities.

2. Talent Competition

We organize talent competitions for children and Refugee children and youths for them to identify their potential, energies, motivations and capacities so that they can make these abilities elements to use in their life and for a better future.

3. Sport for Change and development.

Sport is a strong tool that promotes social inclusion among different cultures. Sport activities also improve physical and mental wellbeing regardless of age or gender.

Right to play as one of the human rights, we organize games to promote gender equality within Nakivale refugee settlement and equal participation for everyone to have fun and enjoy the games.

4. Art and craft.

Art is a powerful communication technique that can be used to carry and give a message to the world.

Our participants learn art and craft, and being able to give different messages related to refugee issues and promoting peace in different communities.

5. Children Storytelling

Storytelling is one of the most important activities to unite children, to teach them about historic events, cultures of different nations and civilizations, and stories of successful people and those who had worked hard to change the world.

6. Empowerment through knowledge sharing

We organize information sessions for refugees to create awareness, sharing knowledge to support them in their day-to-day life about human rights, child protection, refugees and citizenship, and much more.
