Wellness Program

Throughout the year, the Del Carmen Foundation operates several programs in support of its mission to promote wellness through education, sports, toys for Christmas, provision of clothing, access to essential medicine, and food. These initiatives include offering scholarships, distributing backpacks and essential school supplies to students for the academic year, facilitating access to athletic equipment to enroll team participation and skill development, organizing a Christmas toy drive to provide joy to children in need, procuring vital medicine, and providing clothing to families facing economic hardship.

Our Mission

Our mission is to help underprivileged children in Venezuela by providing access to education, athletic activities and other essential resources to guide them towards a more productive and positive life. Our vision is to ensure that every disadvantaged child has access to the tools and experiences necessary to succeed in their youth. Our nonprofit focuses on mission-oriented programs that align with this vision, striving to make a lasting impact on the lives of vulnerable youth.

Impact Report

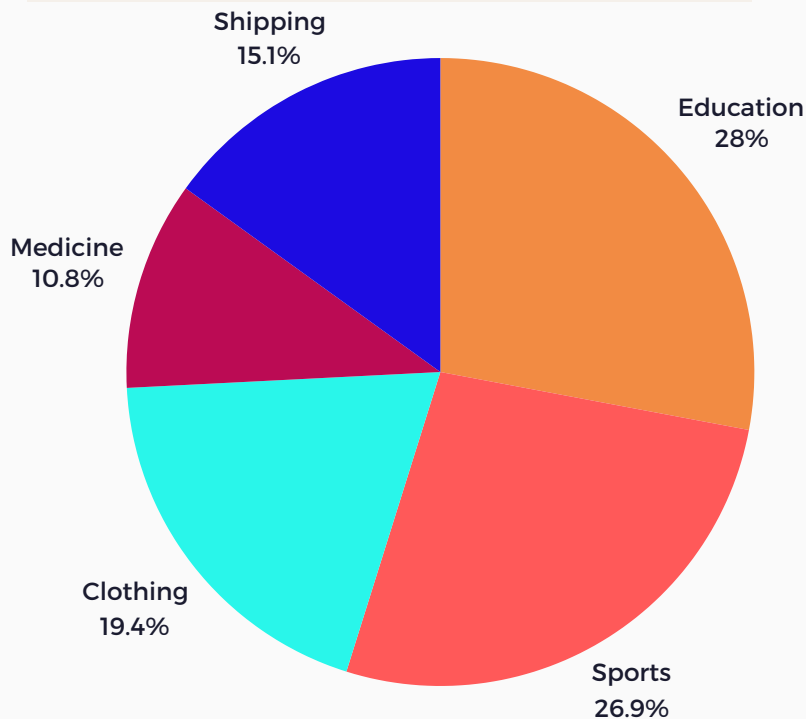

2022 to 2023

In 2022, our first year, Del Carmen Foundation served 1,125 vulnerable children and youth between 0 and 18 years old in Venezuela through our six programs: education, sports, toys, clothing, medicine, and food. We served 10 communities across two cities, and our approach is to promote physical and emotional well-being, educational development, and joy by providing essential resources and opportunities to these young minds.

By the end of December 2023, we successfully assisted 3,000 children in accessing education, sports, clothing, shoes, medicine, and food. None of this would have been possible without the generous support of our donors! In 2023 alone, we received a total of more than \$56,000 in donations, which has enabled us to lay the groundwork for a brighter future for the children of Venezuela.

It's alarming to note that 60% of the youth we serve in Venezuela are at risk of discontinuing their education. As the sole nonprofit organization reaching out to these communities, we are working tirelessly to bridge this gap and ensure every child has access to educational opportunities.
