

DONATE FOR EDUCATIONAL MATERIALS AND UNIFORMS TO POOR SCHOOL CHILDREN IN INDIA

<><><>

1. Project Title

Donate for Educational Materials and Uniforms to poor School Children in India.

2. What will this Micro Project Change ?

It is proposed to provide Educational materials and School Uniforms for the Education development of poor Children in urban (Slums) areas. Due to poverty and meager income Children's parents are unable to provide School Uniforms and Educational materials to their Children, because of poverty, unemployment and meager income. Consequently, their Children are unable to attend School regularly and some of the Children are becoming School dropouts and going for daily labor along with their parents. But, not yet the poor Children are not attending to Schools, because they did not have Educational Materials and School Uniforms. Therefore, majority of the Children are becoming the Child labor, leading very measurable and sympathetic life in the society. In addition to the above, younger Children aged 9 to 14 years are working in Cotton Seed fields. Because of the farmers are applying most poisoning chemicals. In order to protect their fields from various type of discovers early in the morning, Children are coming for labor in the same morning. The Children are working in making for male and female flowers. Consequently, the Children are victimizing for various types of chronic diseases such as chronic skin diseases, brain fever, brain tumor, Cancer and heart diseases. Hence, this essential support for Educational Materials and School Uniforms. Thus, they will continued studies and get golden life in forthcoming days.

3. What problem will this project solve ?

Because of poverty and meager income parents are unable to spend expenses for Children Education. Consequently, it becomes a problem for the Education development of the poor Children. In addition to the above Children are feeling inferiority complexes, because they did not have Books and Uniforms. It is necessary to provide Educational materials and School Uniforms. Thus, the Children will be liberated from inferiority complexes, mingle with other Children and get self confidence and superiority complexes to this project. Thus they will continue studies, get prosperous and respectable life in the Society.

4. How will this Micro project solve the problem ?

Due to poverty meager wages and over Children parents are facing lot of problems to provide basic Educational Materials such as Text Books, Note Books, Pen, Pencils, Eraser, School Bags and School Uniforms to their Children. Hence, they are feeling inferiority complexes and they are not going regularly to School. Thus, they are becoming School dropouts and Child labor in the Society. Hence, their bright future is becoming gloomy. If your esteemed organization will provide financial support to our organization, we will purchase all the Educational Materials and School Uniforms and provide to the poor Children. They will continue studies to get good life and they will become as good citizens in the Society. Because, they are very poor and remember their poverty, problems and other difficulties and play a vital role in the future, help to the poor Children and prepare them as best Children in the society.

5. Potential long term impact.

1. The purpose of the project to provide basic Educational Materials and School Uniforms to the poorest of the poor School Children.
2. Because, they are suffering from inferiority complexes and mental agony, because of they did not have proper Educational Materials and School Uniforms. Thus, they are not attending properly to classes and facing lot of problems to this project, we will come out from inferiority complexes and lead prosperous and respectable life.

3. By providing Educational Materials, School Uniforms and other basic materials to them. Their self confidence and self respect will be improved a lot.
4. Their Education standard will be improved a lot and get prosperous life in future.
5. They will be liberating from Child labor and inferiority complexes to this project.
6. They will become as role model for the other poor Children and help them to develop Educational status of the other poor Children.
7. These poor Children experience will become as a good story to the other poor Children. Consequently, the other poor Children also will become as good impression and become best citizen in the society.
8. This project will help a lot for Education development of the poor Children and they will also help to the other poor Children.
