Bahá'i Temple - Peñalolén

Rio Clarillo National Park - Pirque

Workshops for educators

In the first year, theoretical and practical workshops are held to awaken the children's wonder, care and love for nature, and at the same time provide them with tools to maintain and grow the natural spaces within the kindergarten.

In the second year, educators are encouraged to develop creativity through experiential activities in order to promote and create pedagogical experiences with the children in the garden and food forest.

Educators workshop

NEW WORLD GARDEN

Theoretical and practical workshops

Autumn - winter sowing season

Spring - summer season sowing

Preparation of the garden

Transplanting

Phytocosmetics:

Lip balm

CERTIFICACIÓN AMBIENTAL DE ESTABLECIMIENTOS EDUCATIVOS

PUNTAJE MÁXIMO: 12 PUNTOS

Evidencias	Orientación
La unidad educativa considera la dimensión ambiental en los siguientes instrumentos de gestión educativa: <ul style="list-style-type: none">Proyecto Educativo Institucional (PEI): misión, visión, principios y valores.Plan de Mejoramiento Educativo (PME) con componente ambiental (presentar en el caso de contar con Reconocimiento Oficial).Componente de formación ambiental en el Plan Anual.	La educación ambiental (EA) tiene un fin integral en la unidad educativa implemente una estrategia en los diferentes instrumentos de gestión educativa que exista coherencia y complementariedad en la gestión educativa, destacando las líneas estratégicas de la dimensión ambiental. Para efecto de este indicador los 2 puntos, el jardín infantil debe considerar la dimensión ambiental en el Plan de Mejoramiento Educativo (PME) y en el Plan Anual. Las unidades educativas particulares pagadas de obligatoriedad de elaborar e implementar un PME en la evaluación de este indicador. En tal caso, se debe presentar el PEI y el Plan Anual. En el caso de no contar con Reconocimiento Oficial, tampoco se debe presentar el PME. En el caso del Plan Anual, se espera que las unidades educativas aborden la dimensión ambiental. Esto con la finalidad de...

“It seeks to bring reality to the curriculum and the curriculum to reality, developing complementary lines of action to strengthen environmental responsibility, care and protection of the environment and the generation of associative networks for local environmental management”.
