

January 2025

Global Giving Report

Together we made it happen!!

We are deeply grateful for the support of our valued donors on Global Giving. Your contributions have had a significant impact on our programs.

Over the past year, we successfully completed a total of 12 Get Global and Get Local programs, and your support has directly contributed to the launch of our second wave of programming, which will begin in January 2025.

Thanks to your generosity, we were able to enhance the skills of our eight staff members, fostering their career development.

‘There is no greater delight than to be conscious of sincerity on self-examination.’

~Mencius~

At Move the World, we believe in the power of honest self-assessment to drive our growth and impact. Through regular organizational evaluations, and quarterly team meetings, we strive to reflect on our achievements, identify areas for improvement, and ensure that our actions align with our mission and values. Your contributions made this possible.

In the upcoming wave, we are excited to expand our outreach by engaging an additional 360 students from four public schools across three vibrant communities within the Ga West Municipal area. This will help to create enriching educational experiences for our young minds who have waited in anticipation for our programs. We know we have your unwavering support to achieve this.
