Subject: Appreciation and Request for Additional Support on Provision of Desks for Primary schools

Dear Sir/Madam,

On behalf of Ukerewe District Council, I write to sincerely appreciate your outstanding contribution towards improving the learning environment in our primary schools. Over the past three years, your organization has generously supported us by producing and distributing a total of 1,215 desks worth over Tsh. 72,900,000 to 21 primary schools across Ukerewe District. This intervention has greatly enhanced classroom conditions and supported effective learning.

The impact of these desks has been remarkable. A total of 4,860 pupils have directly benefited from being able to sit and learn comfortably, with an average allocation of four pupils per desk (1:4 ratio). This has not only reduced congestion in classrooms but has also significantly improved pupils' concentration, participation, and overall academic performance.

However, despite this tremendous support, the district is still facing a serious shortage of desks. According to the 2025 statistics, the district requires a total of 33,100 desks, whereas the current available desks stand at 29,170, leaving a shortage of 3,930. While the Council continues to mobilize local resources and engage other partners to address this gap, we kindly request your continued support to provide an additional 1,500 desks. These will enable 6,000 pupils to access desks at a ratio of 1:4, thus improving the learning environment and educational outcomes across our schools.

Once again, we extend our deepest gratitude for your invaluable partnership in the education sector. We look forward to your positive consideration of this request and to continuing our collaboration for the benefit of the children of Ukerewe District.

Yours faithfully,

Mang'oha Maginga
Acting District Executive Director
Ukerewe District Council
