#MásEducaciónMásFuturo
2012-2024

MISSION

Through an innovative and inclusive model, we strive to **offer quality education for underprivileged girls, boys, and teenagers**, at the same cost as that of a government-managed school.

Since 2012, the **María de Guadalupe School** has been operating in Las Tunas, and in 2024, the **Rosario Vera Peñaloza School** opens its doors in Garín. Additionally, we offer a **Labor Inclusion Program** for Secondary School graduates.

SUSTAINABILITY

Fundraising

*The commitment of families directly favors the children's school careers. For this reason, it was decided to have a minimum fee for those families who can contribute to their children's education. Since our mission is to expand access to quality education in underprivileged populations, the admissions policy contemplates that students with fewer opportunities have access to scholarships.

Opening March 2024

ROSARIO VERA PEÑALOZA SCHOOL

In line with the mission, and based on the experience, learning, and achievements of María de Guadalupe School, the initiative for this new educational institution was born.

Rosario Vera Peñaloza School began its activities in March **2024 for 225 students in Kindergarten and Primary levels** who live in situations of social vulnerability in Garín. It aims to achieve a complete **educational offering up to the Secondary level for 1,125 students by 2031.**

Donations in **kind and service** will be recognized in the category corresponding to the value of the contribution. Other donations will be acknowledged with mention on the website and in the institutional yearbook.

SPONSOR EDUCATION

ONLY **876 USD** is needed to support a student for the whole year!

Today, 10% of the cost per student is supported by family contributions, 60% by state contributions, and the remaining 30% is sought through donations.

Sponsors are a fundamental part of the spirit of the Foundation, and that is why we make them part of institutional life. The doors of the school are always open to welcome them.

Each sponsor receives our periodic communications, two special reports with information on the students' educational results, newsletters, and special events invitations.

We are continuing to expand our educational model to reach **2,250 students** in our current schools over the coming years, and we aim to establish new schools to **grow our network**

We are building partnerships with other educational projects and governments to influence **national educational policies**

A close-up photograph of three young girls of diverse backgrounds smiling and hugging each other. The girl on the left is wearing a light blue jacket, the middle girl is wearing a white shirt, and the girl on the right is wearing a light blue shirt and has her hair in pigtails. The background is slightly blurred, showing what appears to be a classroom or school setting.
