

Bucha Potential x Restart

Project idea

Creating an external classroom for the local school that can function and a community gathering place with education elements on biodiversity & sustainability.

- proposals must **involve the development of activities to improve selected public spaces** and/or **complement local policy/strategy**
- focusing on **innovation and action** in public spaces through **citizen engagement** in their re-design
- at least two specific and clearly identified **target groups** - include a **communication and dissemination plan** to engage with target groups
- the **role of the city** / local authorities must be well defined
