UPDATE ON 2025

This year our focus is more on fundraising and building our networks for sustainable funding of our programs. We have a desire to work with more schools to set up inclusive learning facilities. We are currently partnering with Good Shepherd AGC school. We have so far supported them in hiring the special needs teacher and the special needs support teacher. This will enable them cater for the growing number of special needs children in the school, We are also giving financial support to enable them take care of that cost..

In the efforts to fundraise, we have applied for a grant from CBM. We are also reaching out to our friends and families for individual support.

WORLD DOWNSYNDROME & INTERNATIONAL WOMENS DAY

This World's down syndrome day and international women's day are both celebrated in March. This year we chose to celebrate one of our own. Josephine is a single mum of 4. Her lastborn daughter Mary Fantasy has downsyntaxrome.. Her resilience to life in the midst of difficult circumstances is what made us to celebrate her. We pray that Fantasy will grow up in environment that will enable her achieve all her purposes in life.

UPCOMING EVENTS
