

Edith has a story of success to tell:

Edith was all praises for SORAK Development Agency's intervention. When our Programme staff visited her later early 2011 among other widows affected by HIV/AIDS little did she know that she would still be alive?

Edith ponders during an assessment visit

Edith was finally selected to benefit from our improving livelihood project. She preferred to be provided with chicken and hence got 10 of them.

Edith extreme left holds chicken during a giving ceremony.

When SORAK Executive Director visited Edith, she had all the joy. She indicated that her health had improved, can now afford eggs as a good diet for her HIV/AIDS affected immune system. She can sell eggs. She has also multiplied her chicken increasing from 10 to 60. Edith indicated that she has sold some chicken, especially the old stock and cocks, otherwise they would have been more.

Edith gives some eggs with SORAK.ED
