

# Sinal do Vale

MATA ATLÂNTICA - BRASIL

A Biohub of +200 hectares developing regenerative solutions  
for the Atlantic Rainforest and the world

## What is not working for our planet?

- Rising Temperatures
- Fresh Water Shortage
- Deforestation
- Misuse of Land
- Biodiversity Collapse
- World Hunger

# Why Sinal?

Located in the metropolitan area of Rio de Janeiro in the transition area between the Guanabara Bay and the Serra do Mar mountain range, we focus on ecosystem regeneration:

- Reforestation
- Protected Land
- Sustainable Food Sources
- Hands-On Youth Education
- Nature-Based Global Learning Conferences

---

## The Heart of Sinal: Sítio da Cachoeira

- Epicenter for global learning to advance sustainable future
  - Cultivated over 40 years
  - Hosted thousands of visitors
- Home to endangered plant and animal species
- Source of potable water for Santo Antonio region

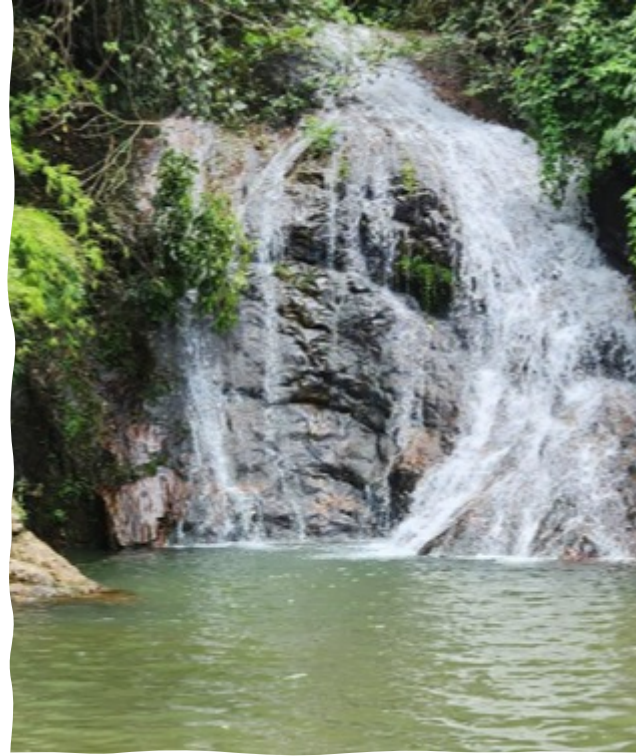

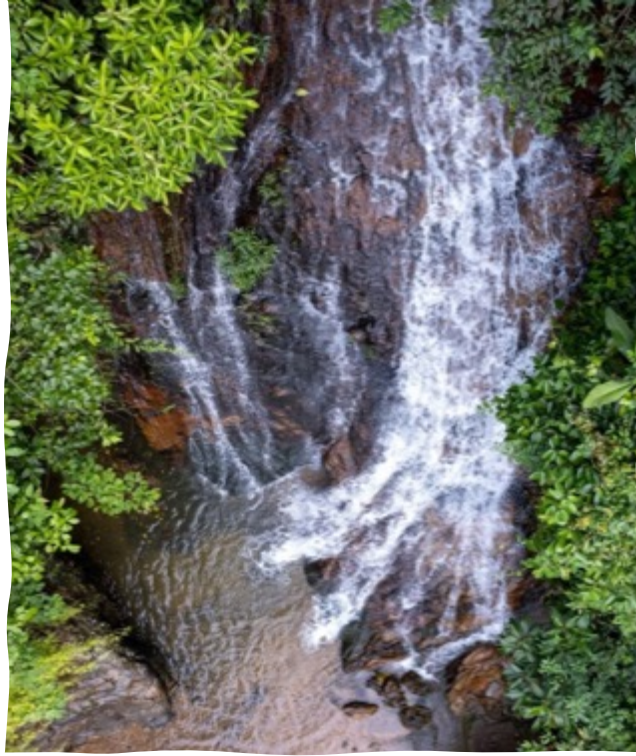

# Call to Action

---

This magical piece of the Atlantic Rainforest is available for purchase:

- \$600,000 total market value due in 2025
  - \$100,000 of total due as initial down-payment by 2024 year-end
- Help us prevent yet another place critical to so many humans, animals, and plants from falling into the wrong hands

# Ultimate Impact

---

- Potable water for 15K people in Santo Antonio region
- Protection of endangered animals such as the golden lion tamarin and plant species like the jussara açai palm
- Ongoing learning to bring conservation efforts worldwide

# Achievements

---

- Certified as a Global Ecosphere Retreat® (GER) by The Long Run
- Certified as UNESCO Advanced Post of the Atlantic Forest Biosphere Reserve
- Member of Regenerative Communities Network (RCN)
- 2023 Firjan Award of Innovation and Sustainability by Brazilian Federation of Industries for Madre Frutos
- Co-Chair of the UN Decade for Ecosystem Restoration

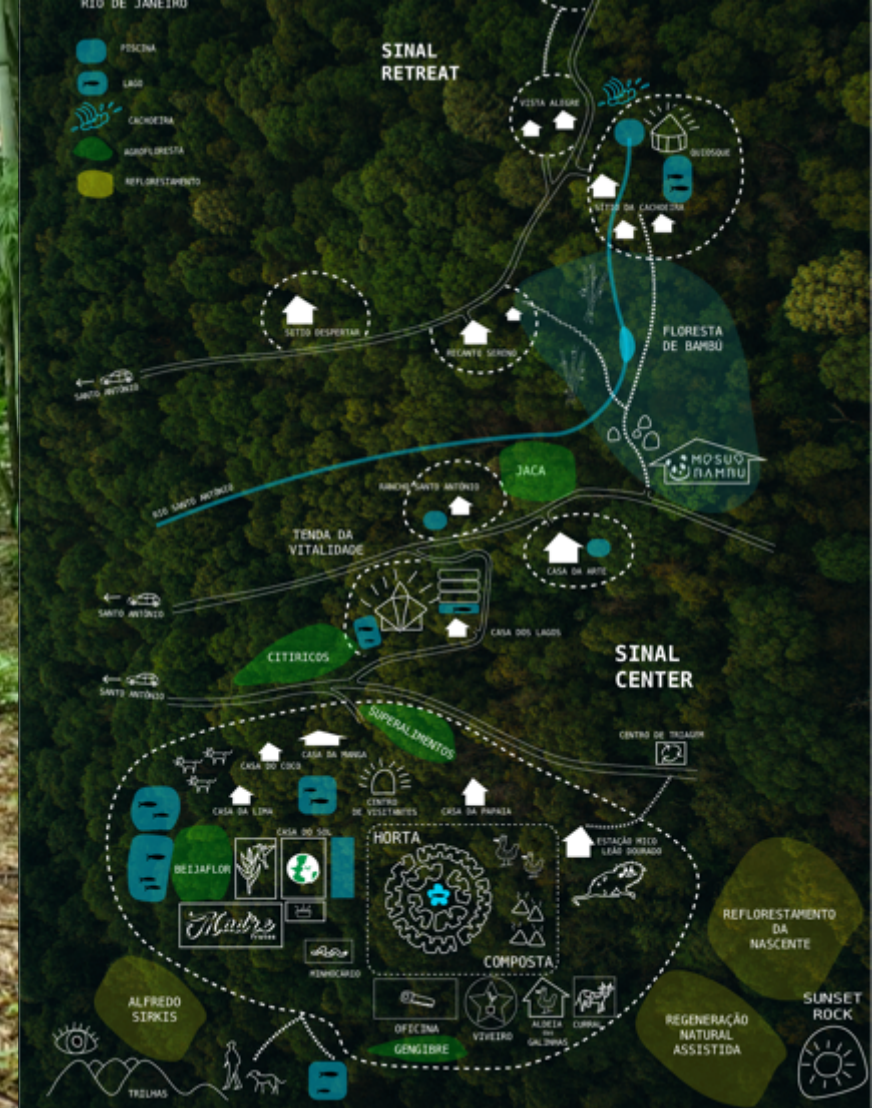

# Thank you from our founder

---

Sítio da Cachoeira has had a pivotal role in the conversion of Sinal do Vale into a Biohub for life regeneration of our planet. Today, only 12% of the original Atlantic Rainforest still stands strong. The other 78% has fallen victim to deforestation. At this critical tipping point, we want to ensure that this special place in the heart of Sinal do Vale does not fall victim to the same fate. Sítio da Cachoeira is a magical place full of wonderful people that will help you to transform yourself and everything you do in this world.

We want it to become a habitat of hope for our planet, a benchmark for nature-based ecosystem regeneration gatherings in Latin America, and a place of personal transformation. With your help, we can stand against climate change and the degradation of the Atlantic Rainforest. Together, we can be a beacon of light shining for others to follow our lead into a sustainable future for the next generation.

Thank you for your support in playing such a critical role in our ecosystem to advance this necessary cause with me!
