

**Our mission is to improve the best quality of care for children and young people with life-threatening or life-limiting conditions, their families and carers worldwide.**

There are an estimated 21 million children globally who need access to palliative care annually.

**21m**

Only around 5% of children globally who need palliative care can access it.

**8m**

are needing more specialist services.

“Palliative care for children is the active, total care of the child’s body mind and spirit and also involves giving care to the family.”

**Children’s Palliative Care is about living life to the full and improving quality of life.**

**Our membership has grown to 4,500 individuals and over 500 organisations from 140 countries around the world.**

**Families with children with life-limiting or life-threatening conditions are not getting the care and support they desperately need.**

## How we make an impact by delivering our CARES framework

### 1. Communication

By regularly sharing info, news and resources on global children's palliative care (CPC) in different languages

### 2. Advocacy

By being the global voice for CPC and advocating for the rights of children to receive the care that they need

### 3. Research

By developing, implementing and disseminating research papers to increase the evidence base to improve CPC globally

### 4. Education

By providing e-learning and training on CPC FREE to improve care provision globally

### 5. Strategy Development

By equipping, empowering and supporting members to develop CPC services globally

In 2025 we celebrate our 20th anniversary and our goal is to raise vital funds to support the delivery and expansion of our CARES framework globally. We rely on the kindness and generosity of individuals, trusts, and corporate partnerships to help us achieve this.
