

Support displaced Lebanese with Life-Saving care

In 2024, Greenpeace MENA successfully delivered \$10,000 in in-kind donations from local foundations to the Lebanese Red Cross, saving lives from under the rubble of collapsed buildings, providing tents, food, clothes, medication, milk and diapers to some forcibly displaced families by the ongoing war on Lebanon and in urgent need of essentials. This is a remarkable achievement reflecting compassion and commitment to supporting communities in times of crisis.

But as the war is ongoing, so does the need.

Over 1 million people remain affected, families separated, homes lost, and an uncertain future looming over countless lives. The aid we've delivered has provided hope, but more is needed. The reality on the ground is dire, and the Lebanese Red Cross continues to be a lifeline for those in desperate need of food, shelter, and medical care.

Will you help us do more?

Your continued support can ensure that these families receive not only essential supplies but also the reassurance that they are not forgotten. 100% of your donation goes directly towards providing the assistance these families need to survive.

Together We Respond: Stand With Families Forced to Leave Their Homes

Across Lebanon, many families have been forced to leave their homes and are now facing extremely difficult circumstances.

Children, the elderly, and entire families are in urgent need of support, including food, infant milk, diapers, and other basic supplies.

The Lebanese Red Cross is working across the country to support people affected by the crisis, providing essential care and emergency support to families who need it most.

Greenpeace MENA is supporting the Lebanese Red Cross in this humanitarian effort.

This campaign is dedicated to supporting the work of the Lebanese Red Cross, and 100% of the donations collected will be transferred directly to the Lebanese Red Cross to support its response on the ground.

Your donation can help support:

Frontline Workers

Lebanese Red Cross volunteers and staff are working day and night to help people in need. Your support helps ensure they have the resources required to continue their work, including supporting Emergency Medical Services ambulance operations and frontline response teams across the country.

Emergency Relief for Families

Providing blankets and food parcels, including infant milk, diapers, and hygiene items, to families who have been forced to leave their homes, helping them meet their most urgent needs.

Medical Care and Health Services

Supporting blood transfusion services, providing blood units, essential medicines, and medical consultations for people in need, particularly for those with chronic illnesses. Mobile clinics and primary healthcare teams are also reaching communities to provide critical healthcare support.
