

March 21, 2025.

Dear Friends,

We sincerely appreciate your trust and support for this project. With your contribution, in collaboration with committed organizations and institutions, we have promoted the development of people in vulnerable communities in Latin America.

The project "**Empowering Latinos in Mexico – Edition 2**" has experienced remarkable growth. This month, seven new participants will join our comprehensive training designed to provide them with essential tools and personalized accompaniment on their path to entrepreneurship. The impact of this project will be detailed in our following activity report. By investing in the potential of every entrepreneur, we are strengthening Latino communities and opening doors to a future full of opportunities.

We reiterate our sincere invitation to join us in this transformative vision. Your contributions are the engine that drives our commitment to empowering more people through entrepreneurship, a powerful tool to generate positive changes in their lives and their communities. By supporting communities in Latin America, we are building a future where every individual, regardless of their background, gender, age, or skin color, can reach their full potential and become an agent of change.

Your participation in this project makes them agents of change. Each donation and each new ally drive our mission, allowing us to expand employment opportunities and transform the lives of those who need it most. With your generosity, we are weaving a better world step by step.

Best regards,

**Patricia Larios**  
**Executive Director**
