April 2025 Project Report
Tree Planting in Togo's Rural Schools
Reporting Period: Last 3 Months

Dear Valued Supporters,

We are pleased to share the latest updates on our **Tree Planting in Togo's Rural Schools** initiative. Your generous contributions continue to support our mission of promoting environmental sustainability, improving school environments, and fostering community engagement. Here's what we've accomplished in the past three months:

Program Expansion

- We have expanded our program to **three additional schools** in Togo, bringing our total to **24 participating schools**.

Upcoming Tree Planting Initiative

- We are preparing to **plant mango and orange trees in all 24 schools** between **April and May**.
- These trees will provide shade, improve air quality, and offer long-term nutritional benefits to students and communities.

Preparation Efforts

- We purchased **700 saplings** from a local women's group, supporting both environmental sustainability and economic empowerment.
- We visited all **24 schools** to mobilize **students, teachers, and community leaders**, ensuring active participation in the tree-planting event.
- Our website was **reconfigured for improved navigation and project updates**, making it easier for supporters to stay informed.

Looking Ahead

As we prepare for the upcoming tree-planting event, we are excited about the long-term impact these efforts will have on schools and communities. Your support makes it possible to create greener learning environments and inspire the next generation to care for the planet.

Thank you for being an essential part of this journey. We look forward to sharing more updates soon!
With gratitude,

Kodjo Drogenou
Co-Founder & President
