

# Dosti Skills Center

At Dosti Skills Center, we believe in empowering individuals to create a better future for themselves and their families. Located in Syed Abad, Shaheed Ghari, Peshawar, KP, our center is a hub of learning and growth, providing basic education and practical entrepreneurial skills like sewing to over 400 students. These skills not only help students gain confidence but also enable them to contribute meaningfully to their communities and build a sustainable livelihood.

At Dosti Skills Center, we are dedicated to providing education exclusively for girls, empowering them to become confident, skilled, and independent individuals. In our classrooms, girls receive basic education that strengthens their foundation for personal and professional growth. With passionate teachers guiding them, these young minds are inspired to dream big & achieve their fullest potential.

Our sewing courses are designed to teach girls entrepreneurial skills that pave the way for financial independence. By mastering sewing machines and garment-making techniques, these young women gain the tools they need to build their own businesses or support their families. Each stitch is a step toward creating a brighter future where they can take control of their lives with dignity and pride.

Creativity thrives in our crafting sessions, where girls learn the intricate art of designing and embellishing fabrics with stunning floral patterns. These activities not only foster artistic talent but also open avenues for self-expression & entrepreneurial ventures. At Dosti Skills Center, we empower girls to turn their creativity into meaningful opportunities, helping them become innovators and changemakers in their communities.
