

About Our Children

Our children come from differently challenged circumstances, which unfortunately are far too prevalent in today's eastern African villages. Some are total orphans, others have destitute single parents, and some are even in danger of becoming child brides or victims of forced servitude. Our mission at DHRC is to provide these children with clean, safe housing as well as nutritional meals, all while caring staff provides them the opportunity to complete their education and life skills training.

As our name suggests, we aspire to lead our children to the **hope** that only their understanding and faith in Jesus Christ as their personal savior can provide, so that they may pursue their God-intended **destinies**.

Our Plan

We are committed to building an economically self-sustaining Home that can support the \$60 to \$100 per child, per month fee it takes to develop our children into healthy, educated, well-balanced, and God-centered young adults with the skills that prepare them to go out and lead joy-filled, productive lives!
