- **Testicular Tumor:** 1 patient

Privacy & Protection: In strict compliance with child protection guidelines, all patient names have been sanitized from this report while retaining exact medical diagnostic and financial data.

Active Cohort & Clinical Overview

Beyond the direct grant recipients, FUNDANICA provides ongoing holistic healthcare support to an active cohort of **116 children and teenagers** in Carabobo State.

116

Active Registered Patients

66 boys (56.9%) and 50 girls (43.1%) receiving continuous monitoring.

9.2 yrs

Average Patient Age

Serving infants, young children, and adolescents across the region.

31

Diagnostic Phase

Patients undergoing initial biopsies, scans, and confirmatory lab tests.

43

Active Treatment Phase

Children actively receiving chemotherapy protocols and surgery.

Hospital Partner Location:

Patients are attended at the *Dra. Yajaira Aguilar Pediatric Hemato-Oncology Unit* (CHET / HUAL Valencia), working in close coordination with FUNDANICA.

Direct Medical & Essential Supplies Relief

In addition to specialized medical testing, FUNDANICA delivers essential hygiene, clothing, and nutritional kits directly to mothers and caregivers during treatment.

Essential Supply Delivery

Providing clothing, hygienic products, and medical items to low-income families.

Nutritional Support

Supplying dietary supplements needed to keep children strong during chemotherapy.

Hospital Logistics

Assisting with catheters, syringes, and medication cofactors not stocked in public wards.

Education Pilot Project (May 2026 Launch):

In May 2026, FUNDANICA launched a virtual education initiative benefiting **59 school-aged children** with cancer, preventing academic dropout during prolonged hospital stays in alliance with local educational institutions.

Recreation, Emotional Wellbeing & Gratitude

"Thanks to the diagnostic test funding and medications provided, my son was able to start his chemotherapy on time without delay. In FUNDANICA, we were never left alone."

— Mother of pediatric oncology patient, Valencia, Venezuela

Thank You, GlobalGiving Donors!

Your generosity turns hope into real medical care, giving children fighting cancer in Venezuela a fighting chance.
