Fundación de ayuda del niño
con cáncer del estado Carabobo

**MANAGEMENT
REPORT
JANUARY - APBRIL
2026**

Allies, Sponsors, and Wonderful Donors,

We present to you our Management Report from January 1st to May 31st, 2026. This report highlights data on the population of children with cancer we have served during this period and the impact of your valuable contributions. So far during this timeframe, we have supported 107 children between 0.1 and 18 years old, who are battling 13 types of cancer and are currently in one of the 3 phases of the disease (diagnosis, treatment, and follow-up until remission).

Everyone who supports us is a hero. You have allowed us to help fulfill patient protocols—guided by oncologists and hematologists from allied hospitals—and facilitate their completion, as these medical requirements are highly expensive and unavailable in the Public Health System.

Every donation that FUNDANICA dedicates to our patients grants them the opportunity and the hope to overcome this disease.

Please accept our deepest gratitude!

Jeluhet Houtmann Rueda
President / Project Leader
