FUNDANICA

Fundación de ayuda del niño
con cáncer del estado Carabobo

Today we are all
FUNDANICA.
HELP! DONATE!

GREETING

What a privilege to know and feel that we are contacting again, to live the emotion of solidarity.

FUNDANICA, is the Foundation for Aid to Children with Cancer of the state of Carabobo. We are about to turn 30 years old and precisely reflecting on our history, today we proudly say that more than 3 thousand children have been supported by tireless work on the part of the Board of Directors, but, above all, thanks to all the sponsors, companies, allies and volunteers. You who are present in each call, who commit yourselves through our different fundraising programs, to provide hope and life. Perhaps we are in a window that has allowed us to look closely at part of the drama that we are going through in terms of health, and that is why we are so determined to move forward in the effort to increase the cure rates of Childhood Cancer in Venezuela, from our rostrum and for that, we need your support more and more.

Just to give you an idea, a family that is going through the diagnosis of a child with Cancer, must allocate an average of \$3000 just for everything that has to do with diagnosis, and then continue with a treatment period of at least two years. This represents a challenging figure for any Venezuelan today. Precisely at this stage, it is where FUNDANICA represents that valuable support for families, and it is a mission that we can only achieve together with you who are friends and allied institutions of the foundation.

Support the journey of these little brave ones, "great masters of life", as they navigate their way to the blue ocean of the future. Every bit of support adds drops of hope, joy and achievements.

María Inés Ferrero Velásquez
President.

We are **FUNDANICA**!

We believe that many people doing small things can do something extraordinary, because we are all special and we all have the right to the opportunity to live.

The Foundation for Aid to Children with Cancer of the State of Carabobo - FUNDANICA is a non-profit organization, established in 1995 on the initiative of Dr. Teresa Vanegas, Pediatric Oncologist at the Dr. Ángel Larralde Hospital in Carabobo, together with a group of mothers who shared the experience of having a child with cancer.

Patients from different parts of the country came to the hospital with solid tumors and liquid tumors (Leukemia), without resources to face the long periods of hospitalization, examinations and treatments. The high cost and the psychological impact that the diagnosis and treatment represent, motivated the creation of the foundation.

FUNDANICA

We are **FUNDANICA!**

VISION

To be an organization of excellence that works for the well-being of children and adolescents with cancer and their families, with the hope of achieving the opportunity of a happy, productive adult integrated into the society of tomorrow.

MISSION

To improve the quality of life of children and adolescents with cancer, increase their survival expectancy and support the performance of health personnel in the fight against the disease.

FUNDANICA

FUNDANICA

Fundación de ayuda del niño
con cáncer del estado Carabobo

Carabobo State is in the central-northern coastal region of Venezuela. Despite being the smallest state in Venezuela, it is home to 9.30% of the country's population. Its area of influence in terms of health coverage includes the states of Carabobo, Aragua, Cojedes, Falcon, Portuguesa, Apure, and Yaracuy, among others.

How does **FUNDANICA** help?

Through the Comprehensive Patient Care Program, examinations and treatments are facilitated through a Letter of Guarantee for patients referred with a Medical Order from hospital centers; these during three important phases: Diagnosis, treatment and monitoring and control of the disease until remission. This includes: Imaging studies, laboratory tests, medical-surgical material, antineoplastic medications, biopsies, immunohistochemistry, radiotherapy (under agreements with specialized centers), special studies, nuclear medicine studies and support medications, among others, which consider the patient for pain treatment and psychosocial support for the family.

**Comprehensive Patient
Care Program.**

How does **FUNDANICA** help?

With the support of our army of volunteers who, with their hearts and actions, help us to brighten the lives of children and support their families. With them, our cause, programs and projects reach many spaces, communities and people.

Volunteers from the Heart Program

How does **FUNDANICA** help?

The provision and maintenance of pediatric units is a fundamental factor in the health network for treating children with cancer in spaces other than those for adults.

There is a great difference in the treatment of children and adults.

At FUNDANICA we promote and facilitate the collaboration of civil society in the development of projects for the construction, improvement and provision of treatment and hospitalization units for pediatric hematology and oncology, also considering playrooms, hospital classrooms and waiting rooms for parents.

t ?

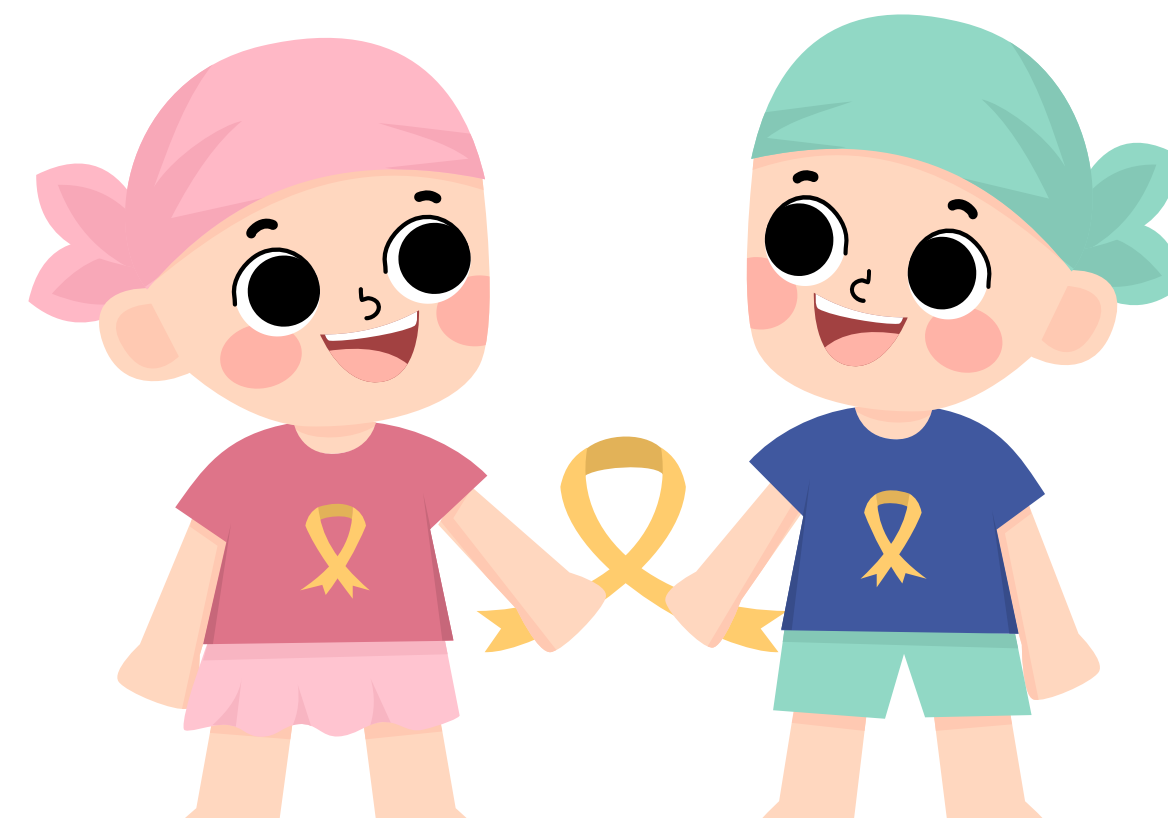

OUR NETWORK

At FUNDANICA we carry out self-management projects such as the production and sale of the FUNDANICA Calendar, events and other fundraising projects.

Through the Sponsor a Dream Program, through which people and institutions collaborate with a monthly contribution through a banking platform, with the full support of strategic allies, companies and institutions that channel their commitment and social connection towards the care of childhood cancer through FUNDANICA.

ANDREA'S STORY

I am Andrea Villegas, I am 17 years old and today I represent a hope for life.

When I was just five years old, I was diagnosed with Hodgkin's Lymphoma. It was a very difficult experience, but with faith in God first and with the help of FUNDANICA, I began to receive my chemotherapy treatment at the Carabobo Hospital. In that space, I met many children who, like me, were facing cancer, wonderful doctors and the FUNDANICA family, a foundation that was and still is looking out for me.

FUNDANICA

Fundación de ayuda del niño
con cáncer del estado Carabobo

ANDREA'S STORY

I have been free of illness for 11 years now. Currently, and with great pride, I have my high school diploma, and I am a university student of Mechanical Engineering, in my first semester at the University of Carabobo. I am also an athlete. I have achieved many things, showing that with faith and the desire to always keep moving forward, goals can be achieved.

Today I want to tell parents and children who are in such a difficult situation, not to see it only as something bad, that cancer is curable and that with the helping hand of our FUNDANICA family and the power of prayer, together with the experience of so many doctors who have an immense vocation, they will also be able to face that stage, feeling well.

STORY OF SOME PARENTS

Luciana Valentina was 5 years old, a normal, healthy, cheerful and mischievous girl. In 2008, we were on a trip to another city and noticed that Luciana was sleepy, sad, and had no energy. When we returned, Luciana was playing with her brother in the yard and was stung by a bug on the arm. The skin reaction, the pain, and the change in skin color to a striking red alerted us that something abnormal was happening.

Luciana Valentina, survivor of acute lymphoblastic leukemia

FUNDANICA

Fundación de ayuda del niño
con cáncer del estado Carabobo

STORY OF SOME PARENTS

We took her to the pediatrician who ordered general blood tests. Based on the results of the blood values, he immediately decided to hospitalize her and consult a hematology specialist. They performed a bone marrow puncture, and the result was a diagnosis of Acute Lymphoblastic Leukemia. Luciana received the order to receive chemotherapy for 25 months. Once this unexpected visit was accepted, we were lucky enough to learn about the existence of FUNDANICA through some friends, who gave us a warm welcome at their headquarters, restoring peace of mind with their psychological support, with their talks, with financial support in paying for tests and obtaining chemotherapy treatments, as well as medications that helped the girl recover from the effects of chemotherapy. Luciana felt very strong and the healing that came step by step was consolidated forever...! After the first 10 years she was declared medically healthy. Today in the year 2024, Luciana, thanks to GOD, science and FUNDANICA, is in remission, studying Dentistry and leading a normal life.

As parents, we are very grateful.

Eliana and José. Parents of Luciana Valentina.

ACCOUNTABILITY 2023

ACCOUNTABILITY 2023

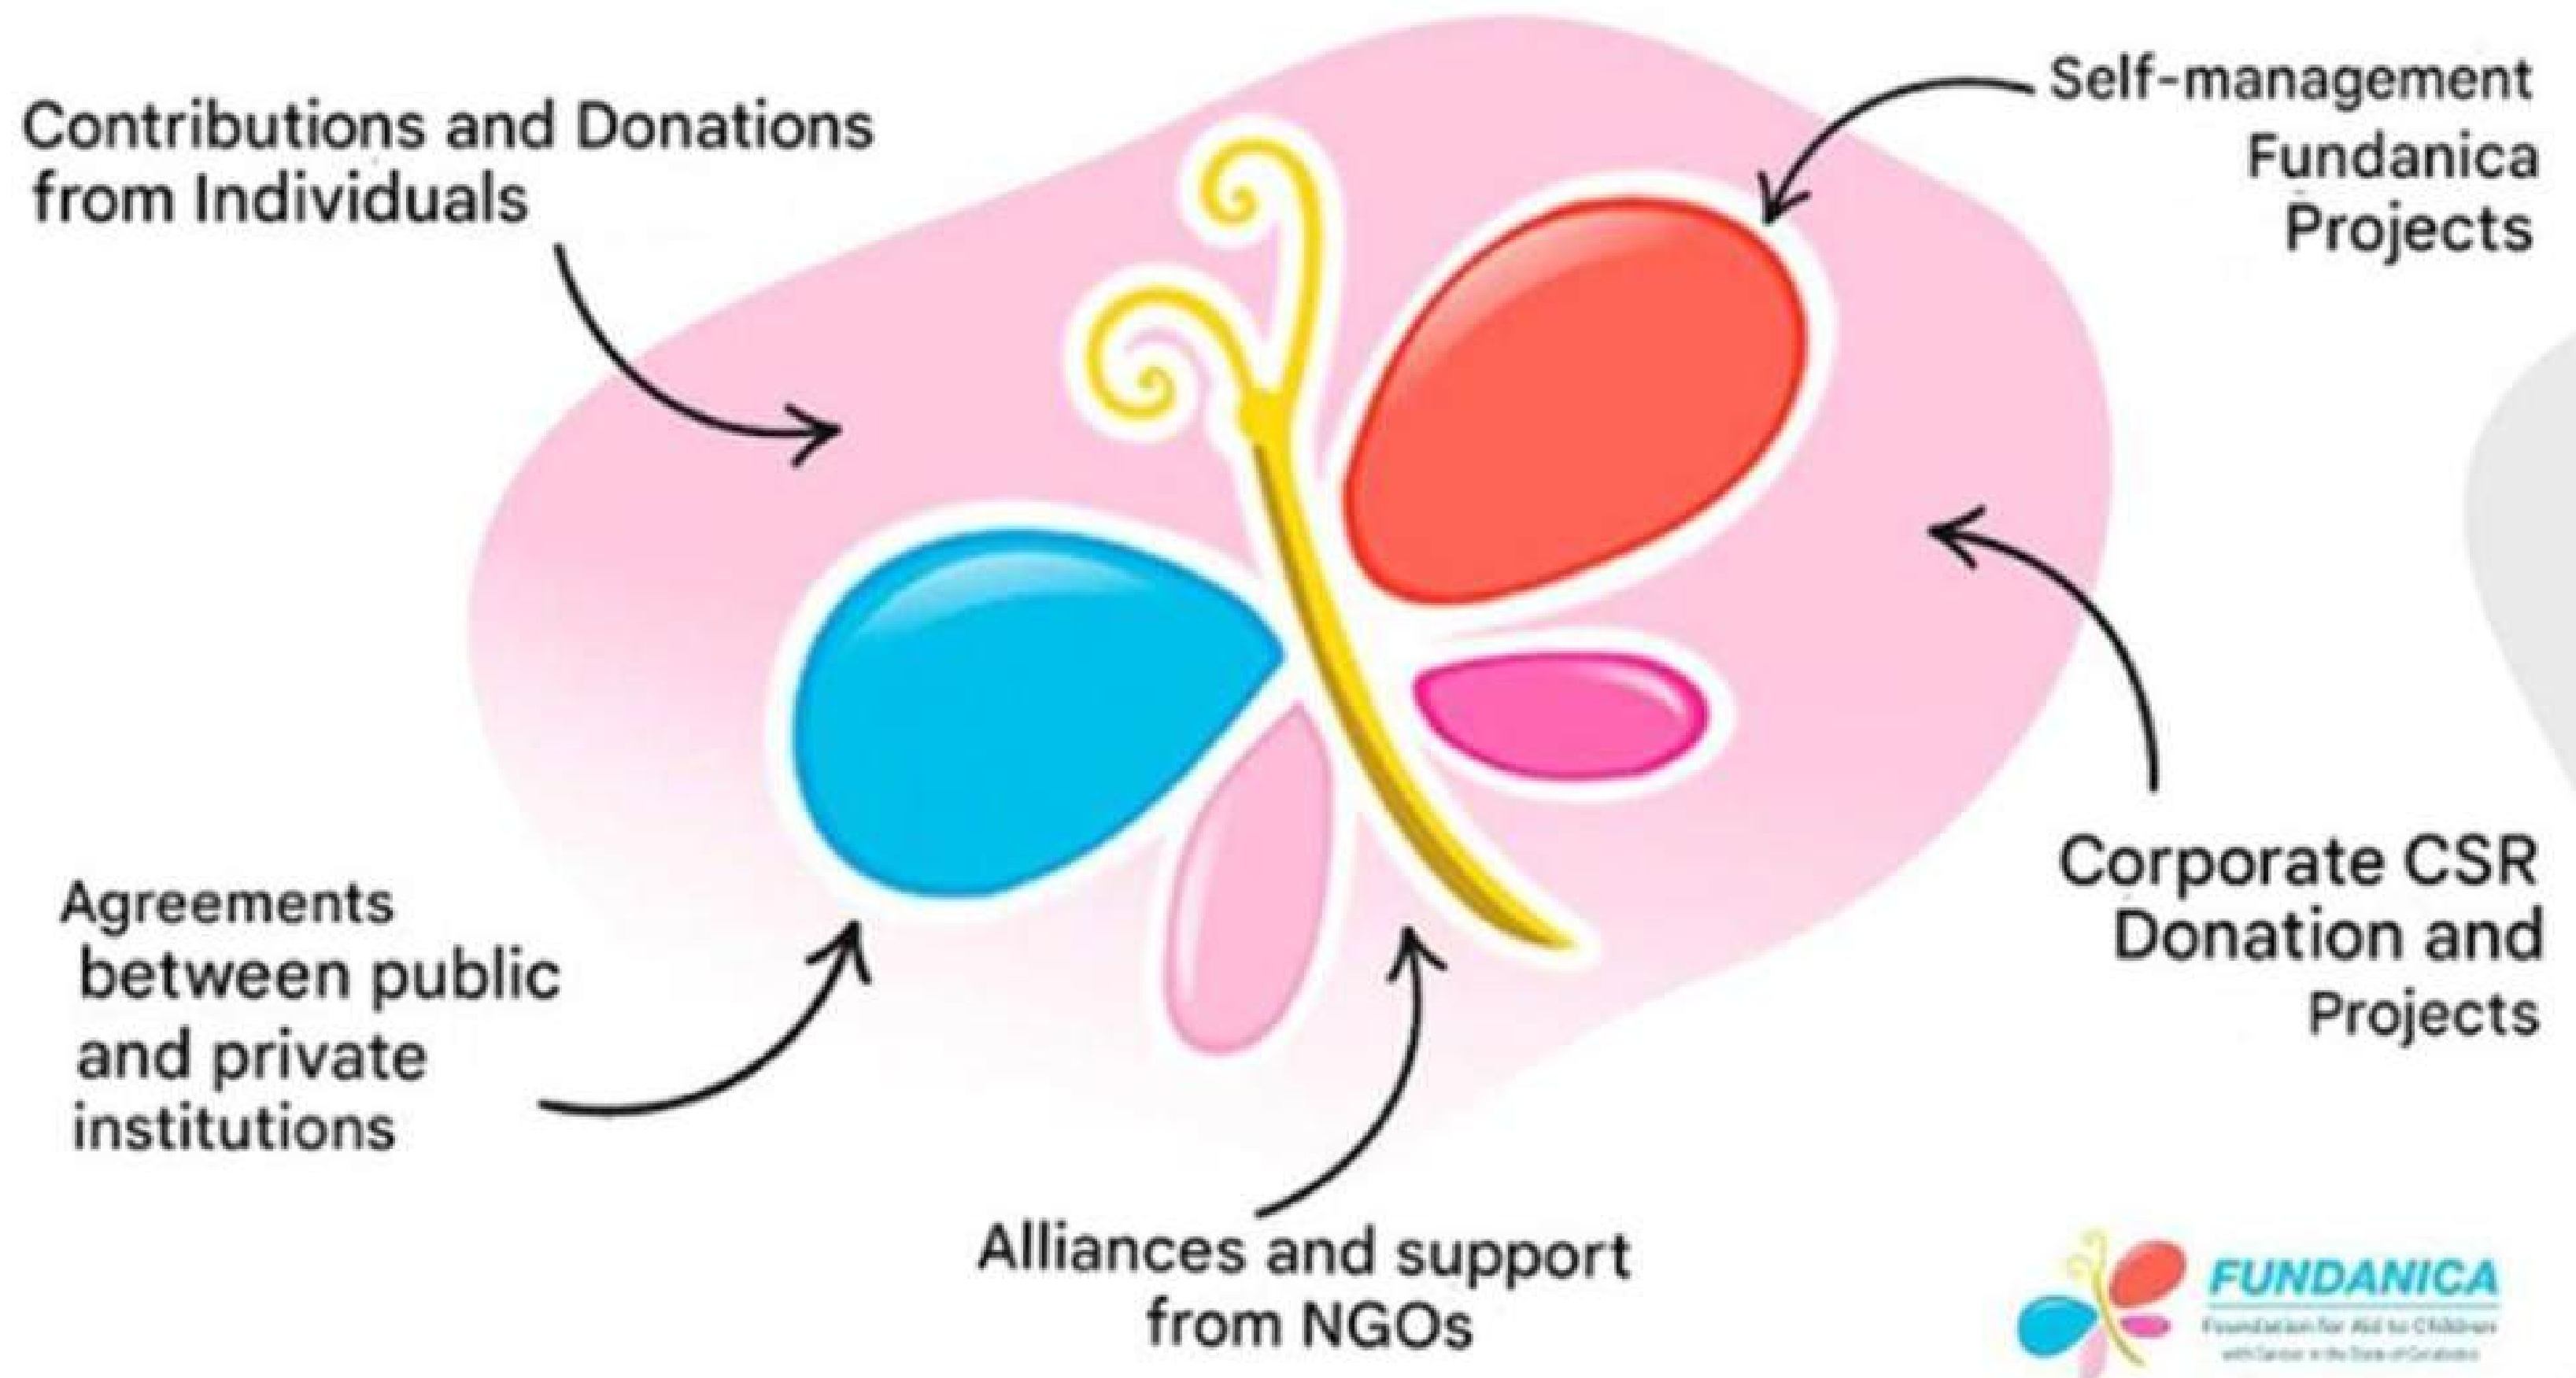

Since the foundation was created (1995), there is a record of 1,910 patients, attending an average of 32 patients per month (new admissions, and for monitoring and treatment). Since that date, over the years, approximately 295 patients (children and adolescents) have been treated thanks to different strategic alliances with medical centers and laboratories, which provide the opportunity to perform the necessary studies for the diagnosis, re-evaluation and follow-up of the disease. These alliances have also allowed us to provide the antineoplastic and support medicines required for each case.

December 12, 2024

Please accept our warmest greetings on behalf of Ford Motor of Venezuela, as we express our strategic values and commitment to Corporate Social Responsibility, and consider it essential to support the fight against childhood cancer in Venezuela.

For 18 years, without interruption, we have channeled contributions through the Foundation for Aid to Children with Cancer of the State of Carabobo-FUNDANICA, especially the annual edition of its Calendar, a flagship project of self-management for fundraising.

FUNDANICA is a pioneering foundation in supporting the early detection and treatment of childhood cancer in Carabobo and other states of the country, with almost 30 years of management. During this time, the Foundation has established itself as a reliable and effective institution that, with transparency and an honest and committed management team, has managed to help thousands of low-income children and families who must face the disease.

We can say that their accountability reports show that they are an expedited channel for beneficiaries to receive care. They also provide us with the administrative and accountability supports that allow us to justify the impact of our social programs and have the necessary records to deduct the investment from our tax returns.

We attest that FUNDANICA is a valuable foundation in the country; a valuable ally to articulate efforts and support the cause of fighting childhood cancer in Venezuela.

Sirs:
Global Giving
Present

It is certificate that the company Radioterapia Cabriales 21, C.A. holder of Rif J-30984709-0, maintains a commercial alliance with FUNDANICA, for 20 years supporting and helping low-income children with cancer in the State of Carabobo so that they can start their Radiotherapy treatment on time, since patients with this disease have strict deadlines to control the disease. This business relationship has allowed us to help many children with financial contributions made by the company, which have been paid in the agreed terms and to our complete satisfaction, supported by budgets, invoices in Medical Reports. For this reason we attest to your honesty and faithful compliance with your commercial obligations.

Certificate issued at the request of the interested part in Valencia, on the 27th day of November 2024.

Sincerely,

Dr. Néstor Hernández
Medical Director

I, Ingrid Sciamanna, on behalf of Laboratorio IDULAB, C.A., a medical laboratory established in Valencia, Venezuela since 1999, certify that our laboratory has kept a partnership with FUNDANICA (*Fundación Amigos del Niño con Cáncer, C.A.*) from over ten years performing blood tests for children with cancer with little or none economic resources.

I certify as well that FUNDANICA is a non-profit organization which performs valuable work in the region and maintains a transparent policy with audited accountability while caring for pediatric cancer patients, giving support to those children and their families in the difficult process of recovering from cancer.

If you need any more information about FUNDANICA and our alliance with them, do not hesitate to contact me. I would be please to assist you.

Best regards,

Ingrid Sciamanna

REFERENCE LETTER

November 26, 2024

To Whom It May Concern,

It is with great pride and confidence that we, Sun.Risas, write this letter to recommend FUNDANICA as a highly committed, transparent, and impactful organization. Over the years, we have had the privilege of collaborating closely with FUNDANICA, and it has been a partnership grounded in mutual trust, shared goals, and an unwavering dedication to improving lives.

Our Experience with FUNDANICA

Through our work with FUNDANICA, we have witnessed firsthand their profound impact on the communities they serve. Their tireless efforts to support individuals, particularly children and families facing critical challenges such as cancer and poverty, reflect their deep compassion and expertise in addressing complex social issues. The organization has consistently demonstrated professionalism, efficiency, and a results-oriented approach, ensuring that every action taken directly benefits those most in need.

Achievements Through Partnership

Our collaboration has enabled us to achieve remarkable outcomes together, including:

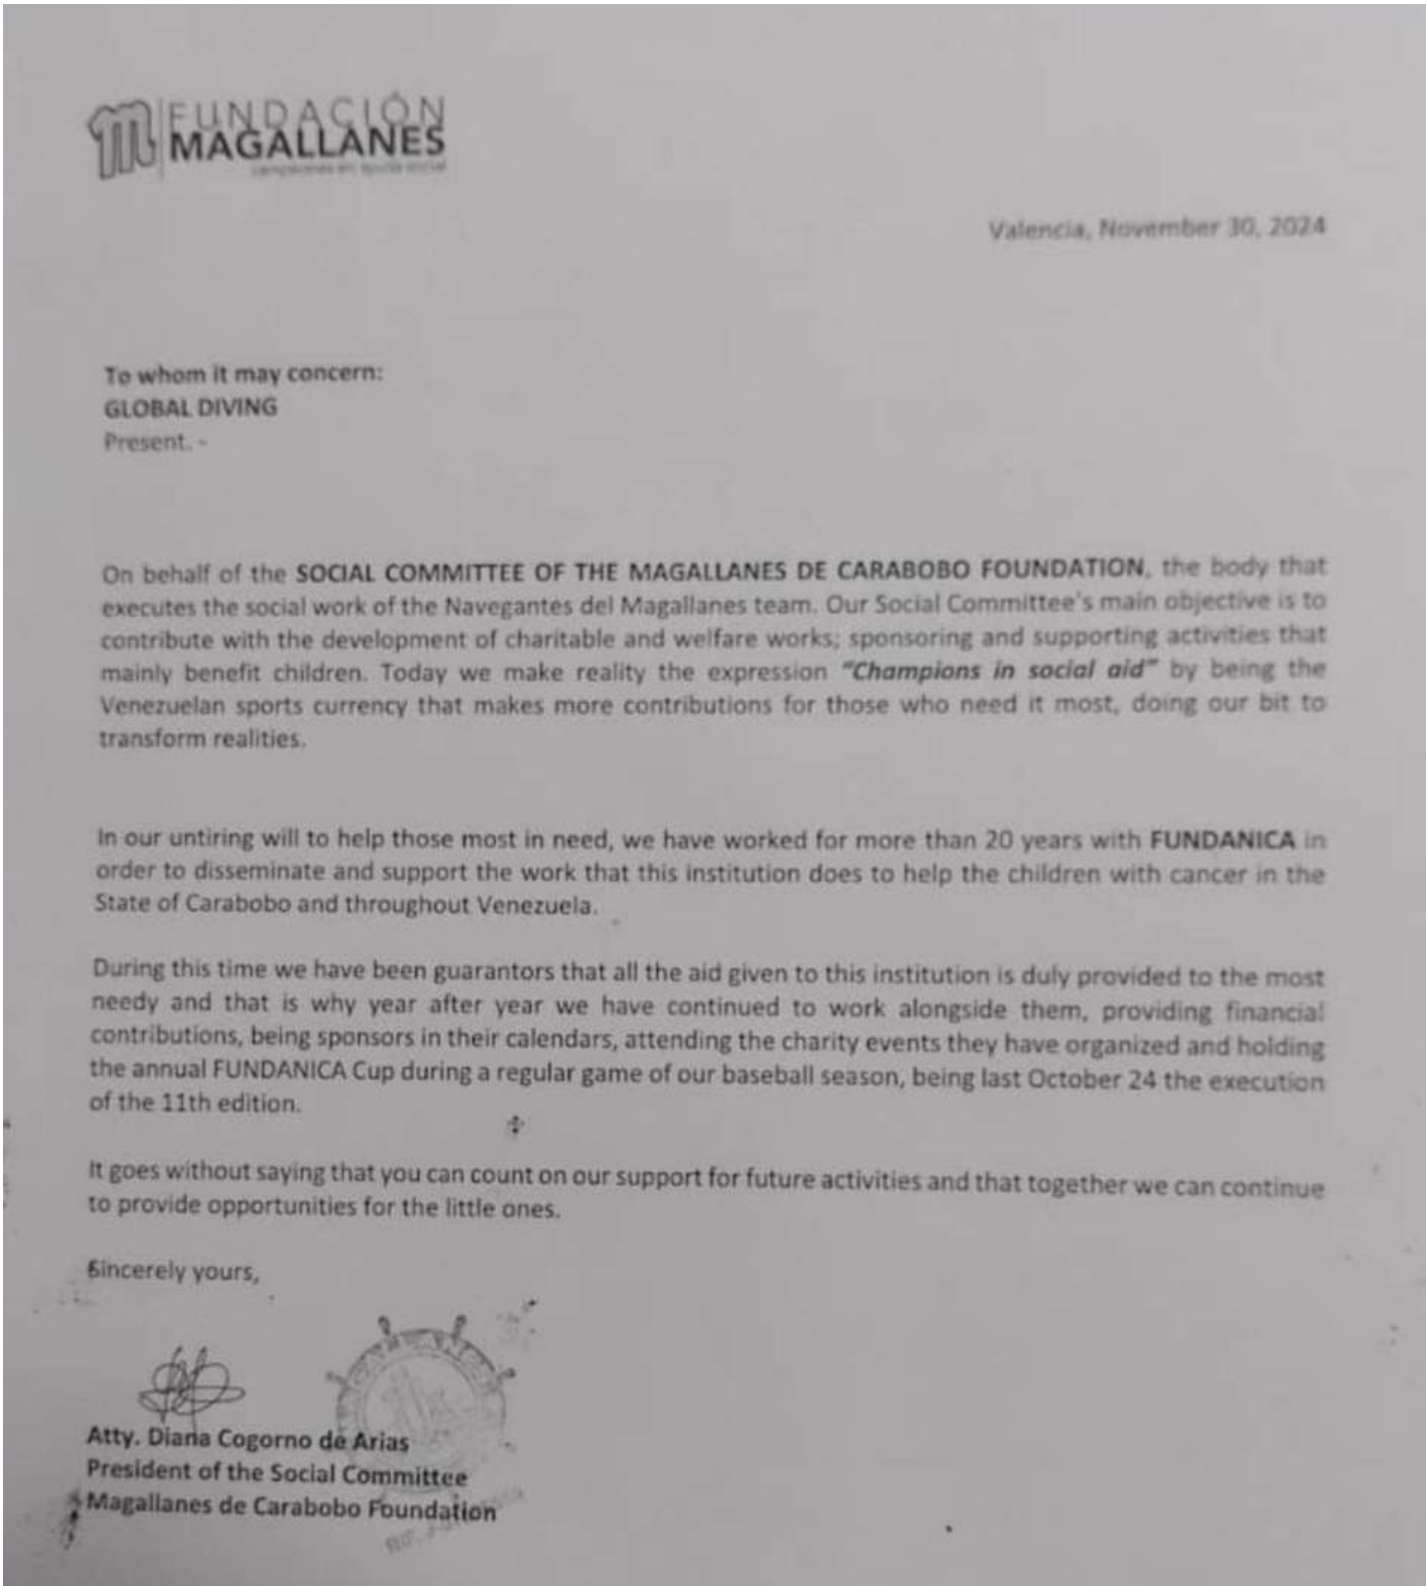

- Expanding access to healthcare and essential resources for vulnerable children.
- Strengthening community support systems through impactful programs.

Why FUNDANICA?

We chose to work with FUNDANICA not only because of their mission but also because of their unwavering commitment to transparency, accountability, and compliance. Their adherence to legal and administrative requirements ensures that every resource is managed responsibly and that all efforts are properly documented. FUNDANICA's meticulous attention to administrative and financial detail, coupled with their open and timely reporting, has earned our utmost trust over the years.

Trust in FUNDANICA's Transparency

One of FUNDANICA's greatest strengths lies in their transparency and accountability. They consistently provide clear, accurate, and thorough reports on their activities, financial management, and impact metrics. This dedication to responsible governance reassures us and all stakeholders that their work is carried out with integrity and professionalism.
